

LYMAN BRIGGS COLLEGE

Elizabeth H. Simmons, DEAN

The Lyman Briggs College is a residential college that bridges the science and humanities through interdisciplinary teaching and research. It provides students with a fundamental core science education in mathematics, chemistry, biology, and physics. Additionally, the core program addresses historical, philosophical, and societal concerns and consequences of modern science, technology, the environment, and medicine. Advanced undergraduate courses in the student's major are taken in the respective departmental units of the College of Natural Science, College of Engineering, College of Agriculture and Natural Resources, and the University at large. The majority of Lyman Briggs students pursue programs leading to advanced graduate study in the natural sciences, or professional programs related to medicine, dentistry, veterinary medicine, allied health, education or law. Many other students plan to enter careers in teaching at the secondary level, science writing, product representation, industry, or government service upon completion of their Bachelor of Science degree.

As a residential college, Lyman Briggs College has class-rooms, laboratories, faculty offices, academic advisor offices, and administrative offices located in Holmes Hall, where all first year and many upper-level Lyman Briggs students live and learn. Because of this residential organization, students are able to develop a strong living-learning community identity by integrating academic and personal development, with faculty, staff and their peers in residence. Students are encouraged to balance their academic lives with social, cultural, athletic, service-learning, and leadership opportunities on campus and in the greater East Lansing community.

Students admitted to Michigan State University are admissible to Lyman Briggs College based initially on application date. There are no additional academic or program requirements for freshman admissions. Enrollment in the college is limited; therefore students are encouraged to apply early. Applicants should indicate their intention to become a part of the Lyman Briggs College on the Michigan State University Application for Admissions. If a student has already submitted an application and would like to ap-

ply to Lyman Briggs College, she/he should contact the Office of Admissions directly as early as possible.

Students work closely with their academic advisors and faculty in developing an individualized academic plan. All students enter the program as 'no major' status and may declare a major as early as summer orientation or by the time they have earned 56 credit hours.

Lyman Briggs College offers two minors: Bioethics; and History, Philosophy and Sociology of Science.

Students who are enrolled in the environmental biology/microbiology and microbiology coordinate majors in Lyman Briggs College may elect the Specialization in Food Processing and Technology. For additional information, refer to the Specialization in Food Processing and Technology statement in the Department of Food Science and Human Nutrition statement in the College of Agriculture and Natural Resources section of this catalog.

Admission as a Freshman to Lyman Briggs College

Any student who meets the general requirements for admission to the university as shown in the *Undergraduate Education* section of this catalog may enroll in Lyman Briggs College, pending available space.

Transfer Students

All students in good academic standing in Lyman Briggs College may transfer at any time to other programs at Michigan State University for which they are eligible, in order to accommodate changing academic needs and interests.

Students who wish to transfer into Lyman Briggs College should contact the Academic and Student Affairs Office to make an appointment to consult with the Admissions Coordinator. Space in Lyman Briggs College is limited.

UNDERGRADUATE PROGRAM

The Lyman Briggs College program leads to the Bachelor of Science Degree.

Requirements for the Bachelor of Science Degree in Lyman Briggs College

1. The University requirements for bachelor's degrees as described in the Undergraduate Education section of this University catalog; 120 credits, including general elective credits, are required for the Bachelor of Science degree in Lyman Briggs College.

Students who are enrolled in Lyman Briggs College may complete the alternative

track to Integrative Studies in Biological and Physical Sciences that is described in item 1. under the heading Graduation Requirements in the College statement. Certain courses referenced in requirement 3. below are equivalent to courses in the alternative track and, therefore, may be used to satisfy the alternative track.

The completion of the Lyman Briggs College mathematics and statistics requirement [referenced in item 3.c.(4) below] may also satisfy the University mathematics require-

The completion of Lyman Briggs 133 or one of the approved alternatives [referenced in requirement 3.a.(5)(a) below] may also be counted toward the University Tier I writing requirement.

The University's Tier II writing requirement for the Major and Coordinate Majors in Lyman Briggs College is met by completing Lyman Briggs College 492 and one of the following courses: Lyman Briggs College 321A, 321B, 322A, 322B, 323A, 323B, 324A, 324B, 325A, 325B, 326A, 326B, 327A, or 327B. Those courses are referenced in items 3. a. (5) and 3. a. (6) below.

The requirements of Lyman Briggs College for the Bachelor of Science degree, referenced in item 3. a. below.

The credits earned in certain courses referenced in requirement 3. below may be counted toward College requirements as appropriate.

The following requirements of Lyman Briggs College for the Bachelor of Science de-

CORE PROGRAM

- (1) **Biology**: One of the following **groups** of courses
 - (8 to 10 credits):

 - (a) Lyman Briggs 144, 145. (b) Biological Science 181H, 191H, 182H, 192H. (c) Biological Science 161, 171, 162, 172.

 - Chemistry: One of the following groups of courses (8 to 10 credits):
 - (a) Lyman Briggs 171, 171L, 172, 172L.

 - (a) Lyman Briggs 171, 171L, 172, 172L.
 (b) Lyman Briggs 171, 171L; Chemistry 143
 (c) Lyman Briggs 171, 171L; Chemistry 143
 (d) Chemistry 141, 142, 161.
 (e) Chemistry 141, 143, 161.
 (f) Chemistry 141, 161, 251.
 (g) Chemistry 151, 152, 161.
 (h) Chemistry 181, 1821, 1851.

 - Chemistry 181H, 182H, 185H.
- Mathematics and Statistics: One of the following

groups of courses (6 to 8 credits):

- Lyman Briggs 118, 119.
 Lyman Briggs 118, Statistics and Probability 231.
 Mathematics 132, Statistics and Probability 231.
 Mathematics 132, Statistics and Probability 231. (b)

- Mathematics 152H, 153H.
- Physics: One of the following groups of courses (6 to 8 credits):

 - (a) Lyman Briggs 273, 274.(b) Physics 231, 232, 251, 252.
 - Physics 183, 184.
 - Physics 183B, 184B.
 - Physics 193H, 294H.
- History, Philosophy and Sociology of Science: A total of 11 or 12 credits from the courses in groups (a), (b), and (c)
 - (a) One of the following courses: Lyman Briggs 133; Writing, Rhetoric and American Cultures 101.
 - One of the following courses: Lyman Briggs 321A, 322A, 323A, 324A, 325A, 326A, 327A.
- (c) One of the following courses: Lyman Briggs 321B, 322B, 323B, 324B, 325B, 326B, 327B.

 (6) **Senior Seminar**: Lyman Briggs 492 (4 credits).
- MAJOR or COORDINATE MAJOR.

Each student must complete the requirements of a Major or a Coordinate Major. The Major or Coordinate Major must be chosen from the lists of options below. Both the Major or Coordinate Major and the related courses must be approved by the student's academic advisor. With the approval of the appropriate Lyman Briggs College Curriculum Coordinator or Undergraduate Director, courses other than those that are listed as requirements for a Major or Coordinate Major may be used to satisfy degree require-

Majors:

Biology

Computer Science

Earth Science

Environmental Science and Management

Physical Science

History, Philosophy and Sociology of Science

Coordinate Majors:

(1) College of Agriculture and Natural Resources:

Animal Science

Entomology Fisheries and Wildlife

Food Science
(2) College of Engineering:

Computer Science

Students are admitted to this Coordinate Major after they have reached junior standing and have met certain other requirements specified by Lyman Briggs College.

(3) College of Natural Science:

Actuarial Science

Astrophysics

Biochemistry and Molecular Biology

Biochemistry/Biotechnology

Biological Science—Interdepartmental

Biomedical Laboratory Science

Chemical Physics

Majors

1. Biology..... A minimum of 41 credits from the courses listed below including: Biochemistry (4 to 6 credits): One of the following, either (a) or (b): Advanced Experiential Biology (6 credits): The following course: LB 348 Research Experiences in Biology 3
At least 3 credits from the following:
LB 490B Advanced Directed Study – Biology 1 to 4 ΙB Other courses as approved by advisor. Integrative Biology (16 credits): All of the following courses: One of the following courses:

Fundamentals of Entomology 3 ENT 404 ENT 422 ENT 470

FW 471 IRIO 306 IBIO

IBIO 360 IBIO IBIO 384 402 PLB

One of the following courses:

		CSS 442 Agricultural Ecology
		FW 420 Stream Ecology
		FW 431 Ecophysiology and Toxicology of Fishes
		FW 444 Conservation Biology
		FW 463 Wildlife Disease Ecology
		GLG 434 Evolutionary Paleobiology
		IBIO 303 Oceanography
		IBIO 415 Ecological Aspects of Animal Behavior (W) 3
		IBIO 440 Field Ecology and Evolution
		PLB 441 Plant Ecology
	(7)	PLB 443 Restoration Ecology
	(- /	One of the following courses:
		FSC 440 Food Microbiology
		IBIO 408 Histology
		IBIO 425 Cells and Development (W)
		MMG 413 Virology
		MMG 421 Prokaryotic Cell Physiology
		MMG 431 Microbial Genetics
		MMG 443 Microbial Genomics
		MMG 451 Immunology
		MMG 461 Molecular Pathogenesis
		PSL 310 Physiology for Pre-Health Professionals4
		PSL 431 Human Physiology I
2.	Compute	Other courses as approved by advisor. r Science
	a. Am (1)	inimum of 30 credits from the courses listed below including: All of the following courses (24 credits):
	(1)	CSE 231 Introduction to Programming I
		CSE 260 Discrete Structures in Computer Science
		CSE 330 Algorithms and Data Structures
		CSE 410 Operating Systems
		LB 220 Calculus III
	(2)	At least two of the following courses (6 credits): CSE 420 Computer Architecture
		CSE 422 Computer Networks
		CSE 435 Software Engineering
		CSE 450 Translation of Programming Languages 3
		CSE 452 Organization of Programming Languages
		CSE 480 Database Systems
3.	Farth Sci	ence
٥.	a. Am	inimum of 27 credits from the courses listed below including:
	(1) (2)	At least 14 credits in courses at the 300–400 level. At least 8 credits in earth science courses outside the Depart-
	(2)	ment of Earth and Environmental Sciences.
	(3)	At least <i>one</i> course in each of the following 5 earth science
		areas (15 to 22 credits). (a) Astronomy and Astrophysics
		AST 207 The Science of Astronomy
		(b) Geology of the Solid Earth GLG 201 The Dynamic Earth
		GLG 321 Mineralogy and Geochemistry 4
		GLG 351 Structural Geology and Tectonics 4 GLG 361 Petrology (W) 4
		GLG 401 Plate Tectonics (W)4
		GLG 481 Reservoirs and Aquifers
		(c) Paleobiology
		GLG 431 Sedimentology and Stratigraphy (W) 4 GLG 433 Vertebrate Paleontology 4
		GLG 434 Evolutionary Paleobiology4
		PLB 335 Plants Through Time
		GEO 203 Introduction to Meteorology

MINOR IN BIOETHICS

requirement.

The Minor in Bioethics, which is administered by Lyman Briggs College, is available as an elective to students who are enrolled in bachelor's degree programs at Michigan State University. The minor is designed to prepare students to engage with the evolving set of ethical issues in biomedicine that they will encounter in their careers or their daily lives. The minor's interdsciplinary character fosters students' abilities to understand and question health care systems from a wide variety of intellectual viewpoints. Such interdisciplinary study also promotes communication across disciplinary boundaries.

Lyman Briggs 492 may not be used to satisfy this requirement. Courses outside Lyman Briggs College may be used to satisfy this

Students wishing to pursue careers in health-related fields may find the minor particularly appealing. In addition, students pursuing academic programs outside health-related fields often find that the minor complements their major. With the approval of the department and college that administer the student's degree program, the courses that are used to satisfy the requirements for the minor may also be used to satisfy the requirements for the bachelor's degree.

MINOR IN HISTORY, PHILOSOPHY AND SOCIOLOGY OF SCIENCE

The Minor in History, Philosophy and Sociology of Science, which is administered by Lyman Briggs College, is designed to increase students understanding of the epistemological foundations and ethical elements of science while learning more of the history of some areas of science and appreciating the complex ways that science is connected to other social institutions and practices.

The minor is available as an elective to students who are enrolled in a bachelor's degree program in Lyman Briggs College at Michigan State University. Students majoring in History, Philosophy and Sociology of Science in Lyman Briggs College are not eligible for the minor. With the approval of the college, the courses that are used to satisfy the minor may also be used to satisfy the requirements for the bachelor's degree.

Students who plan to complete the requirements for the minor should consult an undergraduate advisor in Lyman Briggs College.

Requirements for the Minor in History, Philosophy and Sociology of Science

			CREDITS			
Complete 7	15 to	16 credits from the following:				
 Two of t 	1. Two of the following courses (8 credits):					
LB	330	Topics in History, Philosophy, and Sociology				
		of Science (W)	4

LYMAN BRIGGS COLLEGE 3 + 4 OPTION

Lyman Briggs College, in collaboration with the MSU College of Osteopathic Medicine, offers an opportunity for selected Lyman Briggs College students to earn a baccalaureate degree after satisfactory completion of a minimum of 90 credits at Michigan State University and a minimum of 30 credits through subsequent enrollment at the Michigan State University College of Osteopathic Medicine. Only students who matriculate as first-year students at Lyman Briggs College may pursue this option. Students interested in this option should consult with their college academic advisor during their first year in the college.

Admission to the MSU College of Osteopathic Medicine component of this program is limited to a small number of students who complete the specified university and college requirements and who fulfill admission requirements for the MSU College of Osteopathic Medicine Doctor of Osteopathic Medicine program.

All students in this program will complete a minimum of 90 credits at Michigan State University in the Lyman Briggs College Biology major. The requirements for the program are as follows:

- Completion of all the Michigan State University graduation requirements, including integrative studies and general education.
- Completion of the Lyman Briggs College graduation requirements including mathematics, chemistry, biology, physics, and history, philosophy and sociology of science.
- Be pursuing the curriculum for the Lyman Briggs College Biology major.
- Completion of a minimum of 30 credits at the MSU College of Osteopathic Medicine in the preclerkship component of the Doctor of Osteopathic Medicine degree program.

Upon satisfactory completion of the specified 120 credits, students in this program will be eligible for the Bachelor of Science degree in Lyman Briggs College with a major in Biology.
