COSTS

Michigan State University reserves the right to make changes in the types, structures, and rates for fees, deposits, tuition, and housing. Every effort will be made to give as much advance notice as possible.

ADVANCED PAYMENTS AND DEPOSITS

Application Processing Fee
- Domestic Undergraduate and Graduate Applicants: $65.00
- International Undergraduate and Graduate Applicants: $75.00

An application fee, not applicable to any other charge and not refundable, is required of everyone requesting admission as an undergraduate, graduate-professional or graduate student. Payment must accompany the application that is submitted to the Office of Admissions. A person requesting admission as an undergraduate, graduate-professional or graduate student who is financially unable to submit the application processing fee may request an application fee waiver.

Advanced Enrollment Deposit: $250.00

All entering undergraduate students are required to pay a $250 Advanced Enrollment Deposit (AED). Payment by the student confirms acceptance of admission, reserves the student a place in both the entering class and a residence hall (if the student chooses to live on-campus), and allows the student to register for a required New Student Orientation (NSO) Program which fill on a first-come, first-serve basis. An admitted student who is financially unable to submit the AED may request a deferral. The $250 AED is fully refundable to fall freshman students who cancel their admission prior to May 1. There is no refund for summer or spring semesters, or for transfer students any semester.

COURSE FEES AND TUITION (2020-21)

Each student is assessed charges each semester on the basis of the credit value (or credit value equivalent of zero credit hour carrier courses) of all courses carried and state residence. Charges will be assessed on a credit hour basis, except for graduate-professional student fees which are assessed on a semester basis and some graduate student fees which are assessed on a semester or program basis and differentiate between "Core" and "Professional and Other" units.

If there is any question of the student’s right to an in-state classification, it is the student’s responsibility to contact the Office of the Registrar at least one month before enrolling.

As amended by the Board of Trustees in the 2020-21 Budget Guidelines. Amounts subject to change for 2021-22 and future years.

For current tuition rates, visit the Student Accounts Web site at: http://www.ctlr.msu.edu/COSTudentAccounts/Tuition_Fees_MainMenu_Year.aspx.

Doctoral Students

All doctoral students must register and pay for a minimum of 24 credits of doctoral dissertation research (course number 999).
Minimum Registration
All students using university services (faculty consultation included) must be registered each semester. Minimum registration consists of one course, one credit.

REFUND POLICY

Refund of Course Fees and Tuition

If a student withdraws from the university or drops a course, the refund policy will be:

1. For changes made through the first ¼ of the term of instruction (measured in weekdays, not class days), 100 percent of the semester course fees and tuition for the net credits dropped will be refunded.

2. For changes made after the first ¼ of the term of instruction and through the end of the session, no refund will be made for any credits dropped. Any courses approved for late add will be billed in the next monthly bill.

When dropping a course, the date the notification from the department is received in the Office of the Registrar will determine the amount of refund applicable.

Appeals concerning the refund policy should be referred to the Office of the Registrar.

Net refunds due to a drop of credits or withdrawal from the university are processed daily and posted to students’ accounts. Amounts due students will be applied against outstanding balances owed the University or returned to students. Questions regarding account balances should be referred to the Student Accounts Office, Hannah Administration Building, 426 Auditorium Road, Room 140.

Financial Aid Refund Policy

Dropping Credits

1. Students may be billed for a portion or all of their financial aid awards if they drop credits or do not carry the minimum number of credits required for aid eligibility.

2. View the enrollment chart at www.finaid.msu.edu/enrlcht.asp to determine if particular grants or scholarships will be reduced when dropping credits. Students will be billed for aid adjustments caused by the changes in enrollment status.

Withdrawal from the University

1. In addition to billing for the dropping of credits associated with withdrawal, there may be additional billing, particularly if a student has received federal financial aid funds (including Federal Stafford Loan), which were to have covered the entire semester educational costs. Refer to the next section for more detailed information on Title IV withdrawal refund rules.

Withdrawal up until the end of the first quarter of the term of instruction will result in 100 percent billing of federal grant aid (Federal Supplemental Educational Opportunity Grant, Federal Pell Grant) and Michigan Competitive Scholarship and may also result in a partial or complete billing of loan aid (Federal Perkins Loan, Federal Stafford Loan, and other financial aid).

2. The bill calculated as a result of withdrawal will depend on the official date of withdrawal and/or the last date of attendance and the percentage and amount of institutional refund to be received.

3. Withdrawal for any semester during the aid year may result in cancellation of a student's financial aid award for the remainder of the aid year. If a student wishes to reapply for funds for spring semester, a written request must be submitted to the Office of Financial Aid within 30 days of withdrawing from the university.

Return of Funds Policy for Title IV Aid Recipients Who Withdraw

The Higher Education Amendments of 1998, as well as the program integrity regulations in 2010, set forth regulations governing the treatment of Title IV funds when a student withdraws from an institution.

There are three types of withdrawals that fall under the return to Title IV (R2T4) federal calculation regulations:

1. Official Withdrawals – student contacts the Registrar’s Office or their advisor to initiate an official withdrawal for a semester, or the student drops all of their courses using the online enrollment system.

2. Unofficial Withdrawals - If a student begins to attend class, receives federal Title IV aid, but then ceases to attend class without providing official notification to the University, the Federal Government considers this to be an "unofficial withdrawal". For Title IV purposes, the withdrawal date for students who unofficially withdraw is considered to be the midpoint of the semester unless a documented last date of attendance can be determined. However, if the University determines that a student did not provide official notice of the intent to withdraw due to illness, accident, grievous personal loss or other circumstances beyond the student’s control, the University may use a date that is related to that circumstance. The refund rules for Title IV aid recipients who withdraw are then followed to determine the unearned portion of Title IV aid that must be returned to the appropriate aid program(s).

3. Modular withdrawals – if a student is enrolled in a standard, term-based program offered in modules (subterms) and ceases attendance at any point prior to completing the payment period or period of enrollment, unless the school obtains written confirmation from the student at the time of the withdrawal that he or she will attend a module that begins later in the same payment period or period of enrollment, the student is considered a withdrawal for Title IV purposes. If written confirmation of future attendance is received from the student but the student does not return as scheduled, the student is considered to have withdrawn from the payment period or period of enrollment and the students withdrawal date and the total number of calendar days in the payment period or period of enrollment would be the withdrawal date and total number of calendar days that would have applied if the student had not provided written confirmation of future attendance.

When a student is considered to have withdrawn, as described above, during an enrollment period in which they have begun attendance and received federal Title IV financial aid, Michigan State University is required to determine the amount of earned and unearned Title IV aid. A student is only eligible to retain the percentage of Title IV aid disbursed that is equal to the percentage of the enrollment period that was completed by the student (calculated daily). The unearned Title IV aid must then be returned to the appropriate federal aid program(s). If more than 60% of the enrollment period has been completed by the student, no Title IV aid needs to be returned.

According to university policy, when a student withdraws prior to the quarter of the semester and/or receives a 100% tuition refund from the university, all of that semesters federal Title IV grant aid (SEOG, Pell Grant, Federal Teach Grant, Iraq and Afghanistan Service Grant) will be billed back to the student's account. Most non-federal aid will also be billed back to the students account. All Title IV aid will be included in the calculations outlined below. Depending on the results of the calculations, some or all of the federal grant aid may be re-disbursed to the student account. The following steps will be followed when determining the amount of Title IV aid to be returned upon withdrawal:

1. Determine percentage of enrollment period completed by student. Divide the number of days attended by the number of days in the enrollment period. If the calculated percentage exceeds 60%, then the student has earned all Title IV aid for the enrollment period.
2. Calculate the amount of earned Title IV aid. Multiply the percentage of the enrollment period completed by the total Title IV aid disbursed (or could have been disbursed as defined by late disbursement rules).

3. Determine amount of unearned aid to be returned to Title IV aid program accounts. Subtract the amount of earned federal aid from the total amount of federal aid disbursed. The difference must be returned to the appropriate Title IV aid program(s).

4. Return of Title IV funds by institution and student:
   a. MSU will return unearned Title IV aid up to an amount that is equal to the total institutional charges for the payment period multiplied by the percentage of the Title IV aid that was unearned. Generally, a student’s tuition and fee refund and/or University Housing refund will satisfy this liability. On occasion, however, particularly when the student remains in University Housing beyond the withdrawal date, a bill will result.
   b. The student will be responsible for the balance of unearned Title IV aid. In most cases, this will be the amount of federal aid funds a student received in the form of a refund for non-institutional expenses multiplied by the percentage of Title IV aid that was unearned.
      i. If the student’s portion of aid to be returned is a loan, then the student is not immediately required to repay the loan. The terms of the original loan repayment agreement will apply.
      ii. If the student’s portion of aid to be returned is an overpayment of a grant, the student is required to only repay the amount exceeding 50% of the total grants. MSU will restore the grant funds to the appropriate federal account, with a resulting charge to the students account. The student will be responsible for repaying MSU for the grant overpayment.

5. Unearned Title IV Funds will be returned to federal programs within 45 days and must be allocated in the following order:
   a. Federal Unsubsidized Stafford Loans
   b. Federal Subsidized Stafford Loans
   c. Federal Perkins Loans
   d. Federal Direct Parent Loan (PLUS)
   e. Federal Direct Grad Plus
   f. Federal Pell Grants
   g. Federal Supplemental Educational Opportunity (SEOG)
   h. Federal Teach Grants
   i. Iraq and Afghanistan Grant
   j. Other Grants

A student may be eligible for a post-withdrawal disbursement if, prior to withdrawing, the student earned more federal financial aid than was disbursed. If a student is eligible for a post-withdrawal disbursement for Title IV funds, it will be processed for the student and a refund will be issued within 14 days of the credit balance.

If the post-withdrawal disbursement includes loan funds, Michigan State University must get the student’s permission before it can disburse the loan. Students may choose to decline some or all of the loan funds so that s/he does not incur additional debt. A notice will be sent out to the student, and the signed, original document must be returned to the School within 14 days.

Michigan State University may automatically use all or a portion of the post-withdrawal disbursement of grant funds for tuition and fees. However, the school needs the student’s permission to use the post-withdrawal grant disbursement for all other school charges. If the student does not give his/her permission, the student will be offered the funds. However, it may be in the student’s best interest to allow the school to keep the funds to reduce the student’s debt at the school.

It is also important to understand that accepting a post-withdrawal disbursement of student loan funds will increase a student’s overall student loan debt that must be repaid under the terms of the Master Promissory Note. Additionally, accepting the disbursement of grant funds will reduce the remaining amount of grant funds available to the student should the student continue his/her education at a later time.

Example of a Title IV return of funds calculation for a Title IV recipient who is considered to have withdrawn:

- Institutional Charges .................. $5,000
- Title IV Loans .......................... $2,000
- Title IV Grants .......................... $1,000
- Total Title IV Aid ........................ $3,000

Student withdrew on 35th day of a 110 day enrollment period.

Percent Earned 35/110 = 32%
Percent Unearned 100% - 32% = 68%

Amount of Title IV aid unearned $3,000 x 68% = $2,040

MSU is responsible for returning the lesser of unearned Title IV aid ($2,040 from above) or unearned institutional charges ($5,000 x 68% = $3,400). MSU will return aid as follows:

- Title IV Loans $2,000 (students remaining loan debt = 0)
- Title IV Grants $40

The students responsibility is amount of aid unearned ($2,040) less school responsibility ($2,040), which is zero.

The example shown above does not reflect every student refund situation that may exist. More detailed calculation examples are available in the Student Accounts Office. If a student withdraws after the 12th week of a 15 week semester, the student should the student continue his/her education at a later time.

Refund Rules for Other Fees, Taxes, Assessments

The Engineering Program Fee, Science and Technology Fee, Health Science Program Fee, Broad College of Business Program Fee, and the Computational Mathematics Science and Engineering Fee or the differential is refunded in the same percentage as course fees when withdrawing from the University or dropping from above 4 credits to 4 credits or less.

Student government taxes, FM Radio tax, and The State News assessments are refundable upon presentation of the appropriate receipt at the respective organization’s office.

Late registration fees will not be refunded.

Residence Hall housing fees are refunded on a pro-rata basis, based on certain variables. In some instances, the cost of room and board may be prorated as of the day following departure, if proper check-out procedures have been followed. Details and procedures are found in the On-Campus Housing Handbook: Terms and Conditions.

University Apartment rent - Tenants will be held to their lease end date, so no proration will occur if they move out early. Refunds for tenants who have been officially released from their lease will be prorated as of the day following the official check out time.

In general, all fees collected by Michigan State University and their respective refund policies shall be subject to judicial review.
as provided in Student Rights and Responsibilities at Michigan State University.

Military Tuition Assistance (TA) is awarded to a student under the assumption that the student will attend school for the entire period for which the assistance is awarded. When a student withdraws, the student may no longer be eligible for the full amount of TA funds originally awarded.

Military Tuition Assistance (TA) Funds Return Policy
To comply with the new Department of Defense policy, Michigan State University will return any unearned TA funds on a prorated basis through at least the 60% portion of the period for which the funds were provided. TA funds are earned proportionally during an enrollment period, with unearned funds returned based upon when a student stops attending. These funds are returned to the military Service branch.

Instances when a Service member stops attending due to a military service obligation, Michigan State University will work with the affected Service member to identify solutions that will not result in student debt for the returned portion.

Calculation
When a student “officially” withdraws from a course, the date of withdrawal will be used as the last date of attendance. If a student receives a zero grade for a course, that is considered an “unofficial” withdrawal.

For unofficial withdrawals, Michigan State University (MSU) will determine the last date of attendance (LDA) by reviewing the last date of activity within a course. For online courses, MSU will determine LDA based on the last date a student made a contribution to the class or submitted an assignment. For face to face courses, the LDA is reported by the instructor on the grade report.

Once the LDA has been determined, MSU will recalculate the TA eligibility based on the following formula:

For 16-week Course Withdraw, if submitted:
Before or during weeks 1 – 4 = 100% return
During weeks 5-8 = 10% return
During week 9 = 10% return (60% of course is completed)
During weeks 10-16 = 0% return

For courses that have durations differing from the 16-week calculation above, if submitted:
Before classes begin through the quarter of the course = 100% return
From quarter of the course through 60% completion = 10% return
After 60% completion = 0% return

OTHER INFORMATION

Fee Payment
All fees, tuition, and housing charges noted above except those in the sections labeled Advanced Payments and Deposits and Miscellaneous Fees and Deposits are due and payable upon issuance of a Registration Billing Statement for the semester. The Registration Bill is only available online in STUINFO. Paper bills are not mailed. Students will be notified by e-mail when the Registration Billing Statement is available in STUINFO. Please refer to the Student Accounts Web site at: cctm.msu.edu/costudentaccounts. Please refer to the Billing and Fee Payment Schedule for the appropriate semester for more detailed information. Payment may be made by check or money order payable to Michigan State University or by electronic check/ACH or credit card through STUINFO. Payments made with Visa, MasterCard, Discover, and American Express credit cards are only accepted via the web and carry a convenience fee. Checks are accepted subject to collection.

Deferred Payment Plan
Students may defer up to 50% of their tuition and related fees. Tuition and related fees which do not appear on the Registration Billing Statement (such as subsequent course adds) will be deferred if they appear on your account prior to your becoming a registered student for the semester (you will become registered when at least the minimum amount due on the registration bill is paid, attendance is confirmed if no payment is due, and any holds are cleared). Otherwise they will be included on the next monthly bill. Students living in University Residence Halls are able to defer up to two-thirds of their residence hall charges. The amount deferred is divided into two installments. Approximate installment due dates are listed below. If a student enrolls by the date specified in the Billing and Fee Payment Schedule, the Registration Billing Statement will list several payment options (if a student enrolls subsequently, they will not have the option to defer tuition). If the student’s payment is at least the "Minimum Amount Due" and less than the “Amount to Avoid Deferment,” the deferred payment plan option will be assumed. Both actual and pending financial aid is first applied against the "Minimum Amount Due." Financial Aid exceeding the "Minimum Amount Due" will then reduce the tuition deferment and subsequently reduce any housing deferment. A $10.00 payment plan service fee will be charged whenever the option to defer either tuition or housing for a semester is elected. A finance charge of 7.9% per year will be assessed on deferred tuition and related charges. There is no finance charge assessed on unpaid housing charges.

A $25 late payment charge will be made whenever either installment for the semester is made after the due date. Students will be held from enrolling and registering for future semesters whenever current semester deferred payments are past due. Failure to make deferred payments on a timely basis may also result in the loss of the opportunity to defer payments.

The deferred payment option for summer session is subject to the student's class end date for the summer session.

Students receiving VA chapter 31 or 33 funding will not be subject to certain penalties, including the assessment of late fees, the denial of access to classes, libraries, or other institutional facilities, or the requirement that a covered individual borrow additional funds, due to the individual’s inability to meet his or her financial obligations to the institution due to the delayed disbursement funding from the VA under chapter 31 or 33.

Financial Aid
All financial aid (except College Work Study) which has been authorized at the time the Registration Billing Statement is produced will appear on the bill. There are two types of financial aid — actual and anticipated.

Actual financial aid is aid which students are eligible to receive, as of the date of the registration bill. This aid will be listed in the detailed transaction section of the bill. It has been applied to the fees owed, reducing the amount owed.

Anticipated financial aid will be listed separately on the bill, in the anticipated financial aid section. Anticipated aid is not an actual payment on the account; it does not reduce the amount owed. Anticipated aid is only used to reduce the 'Minimum Amount Due’
on the Registration Billing Statement. In order for anticipated aid to become actual aid, further action on the student's part may be needed. Please refer to 'Financial Aid (check your aid)' on STUINFO, the student online system (www.stuinfo.msu.edu) for information on actions that may be required.

Eligibility for each of the different awards is monitored at various points in the semester, ranging from the point of time it is credited to the account, to the end of the semester. Refer to the financial aid award notification, or contact the Office of Financial Aid, for more specific information.

If the total of actual financial aid (no longer anticipated aid) exceeds the amount owed and registration has been completed, the student may be entitled to a refund. Refunds will be direct deposited or mailed to the current address beginning the week before classes. To ensure the quickest receipt of a refund, we highly encourage students to sign up for direct deposit in STUINFO. Direct deposit allows for the fastest method of receiving refunds and is safe and secure and eliminates the risk that MSU may not have your most up to date address. **NOTE:** Financial aid for a current semester may be used to pay any past due Controller's Office debts up to a maximum of $200 unless the student informs the Student Accounts Office to the contrary in writing 10 days before the start of the semester.

### National Merit Scholarship

The National Merit Scholarship appears as a temporary credit on your registration bill until Michigan State University receives actual funds from National Merit at the beginning of the semester.

### Books

Costs for books vary widely for the various academic programs. The average cost for undergraduates is estimated to be approximately $554.00 per semester and for graduates is $779.00 per semester.

### Returned Items

**[Includes rejected electronic check/Automated Clearing House (ACH) payments]**

A $25.00 returned item service charge and a $50.00 late registration fee will be assessed to a student whose registration check/ACH is returned from their financial institution to MSU unpaid. Students failing to make payment in full for returned items (and any applicable fees) by the date stated on the notification letter will have their registration canceled.

There is a $25.00 returned item service charge assessed for each non-registration check/ACH that is returned to MSU unpaid. In addition to the returned item service charge, the university reserves the right to take one or more of the following actions:

1. Place an immediate enrollment and registration hold.
2. Place the individual on the University Bad Check/ACH List which precludes the individual from presenting checks to the University for any reason and may be a cause for denying future short term loans.
3. Block the student and other authorized guest users from making online tuition payments via STUINFO.
4. Transfer the debt to a collection agency.

5. File a complaint with the police for possible prosecution.
6. Refer the student to the Judicial Affairs Office for disciplinary action.
7. Bring civil action against the individual for the amount of a returned check/ACH not redeemed within 30 days of the date of the notification letter and $250 in costs. In addition, the court could rule that you must also pay the greater of $100 or two times the amount of the returned check/ACH. If you pay the total amount due within 30 days, no civil action will be taken against you.

REGULATIONS FOR QUALIFYING FOR IN-STATE TUITION

These regulations establish the criteria for eligibility to receive in-state tuition rates at Michigan State University. Based on information supplied in the application for admission, a student will be classified as an in-state or out-of-state student. Any student who believes he/she has been incorrectly classified may complete an Application for Classification to In-State Fee Status (see section V, below).

Students may qualify for in-state tuition status in any of the following ways:

1. Establishing domicile in Michigan;
2. Establishing that they (a) have attended for at least three (3) years an accredited Michigan high school; (b) have graduated from an accredited Michigan high school, or obtained a Michigan General Educational Development High School Equivalency Certificate (GED); and (c) will start their education at the University within forty (40) months of high school graduation or receipt of a GED; or
3. Establishing that they have met one of the criteria listed in section III.

1. Establishing Eligibility through Domicile.

For purposes of these Regulations, "domicile" is defined as the place where an individual intends to return whenever he/she is absent from the University.
Generally, an individual whose activities and circumstances, as documented to the University, demonstrate that he/she is domiciled in Michigan will be eligible for in-state tuition status. A student whose presence in the State is based on activities or circumstances that are indeterminate or temporary will not be eligible for in-state tuition status.

A. Dependent Students.

The domicile of a dependent student1 is presumed to be the same as that of the student’s natural or adoptive parents.2 If only one parent is domiciled in Michigan, the student will be presumed to be a Michigan domiciliary whether or not that parent is the student’s custodial parent.

A parent will be considered to be domiciled in Michigan if he/she:

1. is permanently employed in Michigan;
2. has established a household in Michigan; and
3. has served over-of-state ties.

B. Non-dependent Students.

A non-dependent student will be considered domiciled in Michigan if he/she has resided in Michigan for the twelve (12) months immediately preceding the first day of classes during which he/she is seeking in-state tuition status,3 and also meets either of the following criteria:

1. The student, or the student’s spouse, is employed in Michigan in a full-time, permanent job, and the employment is the primary purpose for the student’s presence in Michigan; or
2. The student has not enrolled in any academic courses at any two-year or four-year degree granting institution during this twelve-month period.

C. Legal Permanent Resident Alins and Immigrants.

Non-U.S. citizens who are entitled to reside permanently in the United States are eligible for in-state tuition by showing that they have established a Michigan domicile as defined in sections I(A) or I(B) of these Regulations. At present, non-U.S. citizens who are entitled to reside permanently in the United States include:

1. Permanent Resident Aliens: must be fully processed and possess Permanent Resident Alien card or status in passport verifying final approval by filling deadline for applicable term.
2. Refugees: 1-84 card must designate ‘Refugee’.
3. A, E (primary), G, and I Visa holders: Based upon current law, these non-immigrant visa classifications are the only ones that permit the visa holder to establish a domicile in the United States. The Registrar shall update this list as changes occur in applicable law.

D. Circumstances that do not Demonstrate Michigan Domicile.

None of the following conclusively demonstrates Michigan domicile:

1. Enrollment in a Michigan high school, community college, or university.
2. Employment in Michigan that is temporary or short-term.
3. Employment in Michigan in a position that is normally held by a student.
5. Presence of relatives (other than parent of a dependent) in Michigan.
6. Possession of a Michigan driver’s license or voter’s registration.
7. Payment of Michigan income or property taxes.
8. A statement of intent to be domiciled in Michigan.

2. Graduate from an accredited Michigan high school, or obtain a Michigan general Educational Development High School Equivalency Certificate (GED); and
3. Start their education at the University within forty (40) months of high school graduation or receipt of a GED.

III. Other Ways to Establish Eligibility.

Students who meet any of the following standards will receive in-state tuition:

1. If a student, or the parent of a dependent student, is a missionary funded by a Michigan church, and the student or parent was domiciled in Michigan at the time he/she went on the mission.
2. If the parent of a dependent student, or an independent student (as defined by the Higher Education Act of 1965, section 480(d)), has been employed as a migrant worker in Michigan for a minimum of two (2) months each year for three (3) of five (5) years prior to the date of the proposed in-state tuition status.
3. A person using educational assistance under either Chapter 30 (Montgomery GI Bill® - Active Duty Program), Chapter 33 (Post-9/11 GI Bill®) of Title 38 of the United States Code and/or Marine Gunnery Sergeant John David Fry Scholarship (38 U.S.C. § 3311(b)(9)), Chapter 31 (Vocational Rehabilitation) while attending Michigan State University (regardless of his/her formal status of residence).

1. A letter from the employer on letterhead that provides the employer’s physical address; and
2. A copy of the most recent pay stub showing Michigan taxes being withheld.

The application and documentation should be submitted to the Office of the Registrar. The Registrar will review the application and supporting documentation explaining why the decision of the Review Committee is wrong.

Students who live on campus are at the center of all that MSU has to offer.

Whether students are looking for a room or suite in a residence hall, flexible housing which allows students to select a roommate without regard to gender, or the independence of living in an apartment with their friends or families, there is an on-campus housing option for every MSU student. Living-learning communities, quiet floors, alcohol-free living space and single room options are also available.

The MSU Neighborhood Model fosters an environment that promotes both student development and academic success. The model combines the residential experience with critical student support services that help our students persist toward graduation.

The MSU Neighborhood Model has revolutionized the manner in which these services are delivered on a large campus, breaking campus down into smaller neighborhoods where students can feel more at home and get the support they need. Services are delivered in our Engagement Centers and residence halls, right where students live.

On-campus living at MSU is all about providing students with a safe, secure and hassle-free living environment that will allow them to focus on being academically successful and making the most of their Spartan experience. On campus, everything from utilities and laundry to cable and internet is included. On-campus living also provides Spartans access to our award winning Culinary Services venues. More information about on-campus housing options and rates is available at www.liveon.msu.edu.

Safety on campus is our top priority and MSU takes the safety and security of our residents very seriously. Many of our residence halls are unique in that they house residential space, dining halls, offices and academic spaces such as labs and classrooms. These halls are considered public, mixed-used buildings and the main entrances to these buildings remain unlocked from 6:30 a.m. to 11:59 p.m. An electronic door access system is in place in our residence halls 24 hours a day, seven days a week, requiring students to scan their MSU ID cards to enter through exterior doors (other than main entrances) and interior doors that lead to living wings. The elevators are restricted with electronic access to residents only. Exterior entrances that lead to living wings remain locked 24 hours a day. More information about on-campus housing options and rates is available at www.liveon.msu.edu.

RESIDENCE EDUCATION STAFF

Each residence hall has a team comprised of a community director, neighborhood administrative coordinators, community support staff, residence hall directors or assistant community directors, resident assistants, and service center representatives. These staff members are responsible for community building, linking students to support services across campus, and responding to emergencies that may arise in the building.

RESIDENCE HALLS ASSOCIATION

The MSU Residence Halls Association (RHA) is the on-campus student government at Michigan State University. Representing more than 14,000 students, MSU RHA is one of the largest Residence Halls Associations in the country. MSU RHA is dedicated to improving the on-campus living experience, and providing many services to students. Campus Center Cinemas, RHA TV, and a number of on-campus events are all services that are provided to the students by RHA.

LIVING-LEARNING AND RESIDENTIAL COLLEGE PROGRAM

Michigan State University's living-learning, academic and special interest programs allow students who share similar academic interests to live together in a designated residence hall or on a particular residence hall floor. Many of the living-learning options allow students to attend class with the same group of peers in their residence hall, which enhances friendships, networking and facilitated ease of gatherings and study time. For more information on living-learning communities at MSU, visit www.liveon.msu.edu.

RESIDENCE HALLS AND APARTMENT APPLICATION PROCEDURE

New students, including transfers and graduate students, receive housing application information after being admitted to the university. Applications for housing at MSU are completed online through the My Housing portal, which is accessible via liveon.msu.edu. Any questions regarding the housing application process should be directed to the Housing Assignments Office at 517-884-5483, 877-954-8366 or liveon@msu.edu.

SUMMER HOUSING - RESIDENCE HALLS

Housing is available for summer session, although reservations are handled separately from those for the regular school year. Students can apply for summer session in the middle of the spring semester. At the end of summer session, students must move out of their summer residence hall and move to their fall placement.
OFF-CAMPUS HOUSING
The Off-Campus Housing Office, 101 Student Services Building, has current listings of housing available to all members of the University community. Staff members in the office also provide general advice and information to persons with problems arising from off-campus housing situations. Off-campus dining plans are available for purchase.

Greek Community
Many of Michigan State University's 52 nationally and internationally affiliated fraternities and sororities offer chapter houses in which their members may live. Chapter members are responsible for the business aspects of managing a chapter house, as well as providing activities addressing leadership development, community service, sports and recreation, social life, alumni relations, accountability and responsibility for their members. For more information on this collegiate living experience, contact the Department of Student Life at 1-517-355-8286.

Cooperative Living Units
A unique type of living experience for Michigan State University students is provided in student housing cooperatives. Students own and operate their own houses and are responsible for governance, maintenance, budgeting and meal planning. Cooperative principles affirm democratic control and open membership to any interested student. The housing cooperatives are all located near the campus and vary in size from 12 to 50 members. Additional information about cooperative housing may be obtained from the Intercooperative Council Office, 317 Student Services Building.

Religious Living Units
In general, living in religious living units is similar to living in other residences with the addition of a denominational religious experience. These units include Living ROCK (men), East Lansing Student Living Center (The Church of Jesus Christ of Latter Day Saints), and the Hillel Jewish Student Center.

EAT AT STATE
MSU's dining plan allows unlimited access to each of our ten residential dining halls. It also includes Combo-X-Change, which allows a meal access as a combo at all Sparty's locations, Sparty's Market (an urban-style grocery store), the MSU Union Food Court, and for takeout from the dining halls. Six Combo-X-Changes are available to use each week (no more than one can be used per day) for on-the-go meals or quick snacks during a study break.

Wherever you eat on campus, your health is one of our top priorities. In each campus neighborhood, an executive chef oversees the creation of daily menus, including vegetarian, vegan and allergy-friendly offerings. Our nationally-recognized food allergy program creates a personalized experience for diners, and nutrition and allergen information is always available at eatatstate.com.

FOR FURTHER HOUSING INFORMATION

University Housing Policy
Michigan State University's housing system seeks to provide an educational environment which is maximally conducive to the learning process of students. Consistent with this philosophy, a variety of living options supported by student fees, is made available in university housing. The university has requirements for on-campus residence to promote an optimal learning environment for students. Any undergraduate student enrolled for seven or more credits at Michigan State University for a semester, summer session excluded, is subject to the university's housing regulations. Compliance with the university housing policy is a condition of enrollment.

Administrative Ruling—University Housing Requirements and Procedures
In accordance with the University Housing Policy, the following stipulations apply:

1. On-Campus Housing Requirement — First-year and transfer students, except as described in the exceptions below, must live in on-campus housing for two semesters (summer semester excluded) as a condition of enrollment. Failure to adhere to the on-campus housing requirement may result in termination of enrollment.

Exceptions to On-Campus Housing Requirement. All first-year students and sophomore students, including transfer students (0-60 credits accumulated) are required to reside in University housing, with the following exceptions:

a. Married students
b. Students who will be twenty years of age by the first day of classes of the fall semester.

c. Veterans with one or more years of active service
d. Students living with parents or legal guardian
2. Juniors and Seniors — Juniors and seniors are encouraged to live on campus.

Enforcement
Those students for whom the housing requirement is a condition of enrollment will be asked to verify their adherence to it. Failure to maintain the required residency could result in termination of enrollment by the Division of Student Affairs and Services. Enforcement of the housing regulations is the responsibility of the Division of Student Affairs and Services. The housing requirement does not apply to students during a semester in which they are enrolled for 6 or fewer credits or during the summer. In any subsequent semester during which the student carries 7 or more credits, the requirement will again become applicable.

Address
Every student is required to report his or her correct current address at the time of registration and to report any change of address thereafter. Failure to register the actual address at which he or she is living, or failure to notify the university of a change of address within five class days after the change becomes effective, will be considered as falsification of university records. Change of off-campus address is made in the Office of the Registrar or via STUInfo. Change of on-campus address is made in the student's My Housing account.

Housing Contract
The Residence Education and Housing Services Housing Contracts is in effect for the period stated in the terms of the Contract. Any student, regardless of class standing, is obligated to fulfill the duration of the Housing Contract unless an authorized release is obtained. (Note: Application for release may be made through Residence Education and Housing Services.) This regulation applies to all students (freshmen, sophomores, juniors, seniors, special and graduate) who enter into a contract for on-campus housing.

Assignment
Only those persons who have received official housing assignments may live in university housing.

Special Permission
Prior to moving into university housing, any new student may apply for an exception to the housing requirements. Information on the special permission procedure and criteria for exceptions can be obtained by contacting the Department of Student Life, 101 Student Services Building. Applications will be considered by a committee appointed by the Vice President for Student Affairs and Services. A student may appeal the decision of the committee to the Vice President for Student Affairs and Services. Off-campus living units that were recognized by the university as "supervised" housing units in the spring of 1983 will continue to be eligible to house students consistent with past practice. Specific conditions that will ensure this eligibility will be developed by the Vice President for Student Affairs and Services and in consultation with appropriate off-campus living units. The residents of these units must be advised that the unit is neither supervised by nor under the jurisdiction of the university and that the university assumes no responsibility for the program, the facility, or persons associated with the unit.

GENERAL PROCEDURES AND REGULATIONS

STUDENT NAME
LEGAL NAME. Students are required to provide their legal name at the time of application and to process official name changes while enrolled, as appropriate. Name change requests must be submitted to the Office of the Registrar with appropriate documentation. Documentation consists of a current driver’s license, official state ID card, Social Security card, court order of legal name change, current passport, or official proof of identity certified by U.S. embassy abroad or by the appropriate foreign embassy in the United States.

DIPLOMA NAME. Students indicate their diploma name on the Michigan State University Application for Graduation. The student name listed on a diploma or certificate must match the legal name as it is recorded on the student’s official university record, with the following exceptions: option of first name or initial; option of middle name or initial; inclusion of former or maiden name(s); and inclusion of proper capitalization and accentuation of name.

PREFERRED NAME. The university recognizes that many of its students use names other than their legal names to identify themselves. Students may indicate their preferred first name on the Michigan State University Application for Admission or by accessing STUInfo (http://stuinfo.msu.edu).

Once established, preferred name will be used across university systems, where possible. The university reserves the right to remove a preferred name if it is used inappropriately, including but not limited to, avoiding a legal obligation or misrepresentation. The legal name will continue to be used for certain university records, documents, and business processes such as reporting, financial aid, official transcripts, and other records where use of legal name is required by law or university policy.

Students may update or remove their preferred name via STUInfo or in person at the Office of the Registrar, Hannah Administration Building, 426 Auditorium Road, Room 150, East Lansing, Michigan, 48824-2603.
ATTENDANCE

No person is allowed to attend a class unless officially enrolled on a credit or non-credit basis with the appropriate fees paid. Students who attend, participate and strive to complete course requirements without formal enrollment will not receive credit for their work.

There is no university-wide regulation requiring class attendance. However, attendance is an essential and intrinsic element of the educational process. In any course in which attendance is necessary to the achievement of a clearly defined set of course objectives, it may be a valid consideration in determining the student's grade. It is the responsibility of the instructor to define the policy for attendance at the beginning of the course.

REPORTING NON-ATTENDANCE. In compliance with federal regulations governing financial aid and veterans education benefits, instructors are required to report students who stop attending or who have never attended class. After the first week of classes, through the middle of the term of instruction, instructors who identify a non-attending student should notify their departmental office. Upon receiving a report of non-attendance, departmental representatives are encouraged to initiate an administrative drop.

Attendance is defined as physical attendance or participation in an academically-related activity, including but not limited to the submission of an assignment, an examination, participation in a study group or an online discussion. Instructors who do not take attendance may utilize key assessment points (e.g., projects, papers, mid-term exams, and discussions) as benchmarks for participation.

DROP FOR NON-ATTENDANCE. Students may be dropped from a course for non-attendance by a departmental administrative drop after the fourth class period, or the fifth class day of the term of instruction, whichever occurs first.

CLASS NOTES AND UNIVERSITY SUPPLIED MATERIALS. As a condition of continued course enrollment and allowed class attendance, a student will refrain from commercializing notes of class lectures and university-supplied materials, by direct sale or by contract with a third party or otherwise, without the express written permission of the instructor. Students may be removed from a class only after a hearing in the department or school, as described in the Student Rights and Responsibilities at Michigan State University, Article 2.4.

FIELD TRIPS. Field trips involving absence from classes must be authorized in advance by the dean of the college in which the course is given. The cost of field trips which are part of organized courses of instruction must be borne by the participating students and are additional to the usual course fees.

CHANGE OF SECTION WITHIN A COURSE

Students who must change from one section to another in the same course may do so using the enrollment system through the first 1/14th of the term of instruction (the 5th day of classes in the fall and spring semesters). After the period ends, changes of section must be made in the department responsible for teaching the course.

CHANGE OF ENROLLMENT

Students are expected to complete the courses in which they register. If a change is necessary, it may be made only with the appropriate approvals as explained below.

ADD AND DROP PERIOD. Students may add courses using the enrollment system through the first 1/14th of the term of instruction (the 5th day of classes in the fall and spring semesters). Students may drop courses using the enrollment system through the middle of the term of instruction.

CHANGE OF OPTION FOR CR-NC (CREDIT-NO CREDIT) GRADING. Choice of the CR-NC grading system must be communicated by the student to the Office of the Registrar within the first 1/14th of the term of instruction (the 5th day of classes in the fall and spring semesters) and may not be changed after that date.

CHANGE OF OPTION FOR VISITOR. Choice of enrollment in a credit course as a visitor on a non-credit basis must be made no later than the first 1/14th of the term of instruction (the 5th day of classes in the fall and spring semesters) in the Office of the Registrar.

TO ADD A COURSE AFTER THE ADD AND DROP PERIOD. Normally, no course may be added after the designated period for adding courses. Any add after this period must be processed beginning with the department offering the course. Final approval rests with the associate dean of the student’s college or if not yet admitted to a college, the associate dean of the Neighborhood Student Success Collaborative.

TO DROP A COURSE OR WITHDRAW FROM THE UNIVERSITY AFTER THE MIDDLE OF THE TERM OF INSTRUCTION. A student may drop a course or withdraw after the middle of the term of instruction only to correct errors in the enrollment or because of events of catastrophic impact, such as serious personal illness. If the student is passing the course, or there is no basis for assignment of a grade at the time of the drop, a W grade will be assigned. If failing, a 0.0 (or N in a P-N graded course) will be assigned. The course will remain on the student’s academic record.

Undergraduate Students: To initiate a late drop or withdrawal, the student must obtain approval from the office of the associate dean of his or her college or if not yet admitted to college, the associate dean of the Neighborhood Student Success Collaborative. Exceptions are James Madison College, Lyman Briggs College, the Residential College in Arts and Humanities.

Graduate Students: To initiate a late drop or withdrawal, students must obtain approval from their advisor or major professor and their graduate program director.

DROPPING ALL COURSES. See the statement on Withdrawal from the University.

CANCELLATION OF ENROLLMENT

Cancellation of enrollment includes the administrative cancellation of a student’s registration due to nonpayment of fees, or because of academic recess or dismissal. Courses in which the student is enrolled will be deleted from the official record. The cancellation of a student’s registration may be processed by the Office of the Controller or the Office of the Registrar.

WITHDRAWAL FROM THE UNIVERSITY

WITHDRAWAL PRIOR TO THE MIDDLE OF THE TERM OF INSTRUCTION. A withdrawal from the university occurs when students drop all of their courses within a semester. Students may drop all of their courses through the middle of the term of instruction using the online enrollment system or in person at the Office of the Registrar, 150 Administration Building. For withdrawals that occur before the middle of the term of instruction, courses in which the student is enrolled will be deleted from the official record.

Undergraduate students are strongly advised to seek guidance regarding the impact of withdrawal from the university by contacting either the associate dean of their major college or academic advisor. For most students who have fewer than 56 credit hours, the Associate Dean’s function is served by the Neighborhood Student Success Collaborative (NSSC). Exceptions are James Madison College, Lyman Briggs College, the Residential College
in Arts and Humanities. Graduate students should consult with their advisor, major professor, or graduate program director; this is especially important if appointed as a graduate assistant.

Graduate students should consult with their advisor, major professor, or graduate program director; this is especially important if appointed as a graduate assistant.

Additionally:

- Fees are subject to refund according to the refund policy.

A student living in a residence hall should consult the manager regarding the policy on the refund of room and board fees.

A student living in an off-campus organized living unit should consult the individual unit for policies regarding room and board refunds.

A graduate student appointed as graduate assistant forfeits his/her assistantship upon withdrawal from the university.

Any student whose enrollment at this university is interrupted for any reason so that he or she has not been enrolled for three consecutive semesters, including the summer sessions should submit a readmission to the Office of the Registrar at www.reg.msu.edu.

**WITHDRAWAL AFTER THE MIDDLE OF THE TERM OF INSTRUCTION**

A student may drop a course or withdraw after the middle of the term of instruction only to correct errors in the enrollment or because of events of catastrophic impact, such as serious personal illness. If the student is passing the course, or there is no basis for assignment of a grade at the time of the drop, a W grade will be assigned. If failing, a 0.0 (or N in a P-N graded course) will be assigned. The course will remain on the student’s academic record.

Undergraduate Students: To initiate a late withdrawal, the student must obtain approval from the office of the associate dean of his or her college or the Neighborhood Student Success Collaborative. Exceptions are James Madison College, Lyman Briggs College, the Residential College in Arts and Humanities.

Graduate students should consult with their advisor, major professor, or graduate program director; this is especially important if appointed as a graduate assistant.

There is no formal procedure for withdrawal at the end of a semester; however, a student living in university housing should notify the manager of the appropriate unit.

**UNAUTHORIZED**. Students who leave the university during a semester or summer session without officially dropping their courses will be reported as having failed those courses and will forfeit any fees or deposits paid to the university. The withdrawal procedure will not take place automatically for the student who leaves campus because of illness, of either one’s self or family member, or for interim or final suspension for disciplinary reasons, but must be initiated by the student. Fees are subject to refund according to the refund policy.

**IN VOLUNTARY**. Students who are called into the armed forces during the semester should submit a copy of their orders to the Office of the Registrar for appropriate action.

**ACADEMIC RECESS OR DISMISSAL**. If a student is academically recessed or dismissed, courses in subsequent semesters are dropped without grades and fees are subject to refund according to the refund policy.

**EXAMINATIONS**

In keeping with university practice, entry into, and participation in, course examinations is controlled through electronic and visual means and by proctored examination site procedures.

In certain courses, such as those offered online, an individual student may be required to arrange to take examinations in a proctored environment on-campus or off-campus. Any costs associated with taking such proctored examinations are the responsibility of the student. The Michigan State University Testing Office is a proctored-testing site for distance learning, www.testingoffice.msu.edu. It is a member of the Consortium of College Testing Centers which is a free referral service provided by the National College Testing Association to facilitate distance learning, www.ncta-testing.org.

**FINAL EXAMINATION POLICY**

During the final week of each fall and spring semester all courses shall meet for one 2-hour period. The Final Examination Policy is available at www.reg.msu.edu/ROInfo/Calendar/FinalExam.aspx. During summer sessions, final examinations are scheduled in the last class sessions. This period should be used for examination, discussion, summarizing the course, obtaining student evaluation of the course instruction, or any other appropriate activity designed to advance the student’s education. If an instructor requires a written report or take-home examination in place of a final examination, it shall not be due before the final examination period scheduled for that course. Exceptions to this paragraph may be approved by the department or school chairperson, or in a college without departments, by the dean.

In the event that a final examination is deemed appropriate by the instructor, it may not be scheduled at any time other than the date and hour listed in Schedule of Courses. Any deviations from the final examination schedule must be approved by the Office of the Registrar based on the recommendation of the assistant/associate dean of the college responsible for the course offering.

No student should be required to take more than two examinations during any one day of the final examination period. Students who have more than two examinations scheduled during one calendar day during the final examination period may contact the Academic Student Affairs Office in their colleges for assistance in arranging for an alternate time for one of the three examinations.

Faculty members shall schedule office hours during the final examination period (or in some other way attempt to make themselves accessible to their students) as they do in the other weeks of the semester.

Common final examinations are scheduled in certain courses with several class sections. In case of a conflict in time between such an examination and a regularly scheduled course examination, the latter has priority. The department or school giving the common examination must arrange for a make-up examination.

A student absent from a final examination without a satisfactory explanation will receive a grade of 0.0 on the numerical system, NC on the CR-NC system, or N in the case of a course authorized for grading on the P-N system. Students unable to take a final examination because of illness or other reason over which they have no control should notify the associate deans of their colleges immediately.

For information on other examinations, see the Undergraduate Education and Graduate Education sections of this catalog.

Admission to a doctoral degree program is a prerequisite of all courses numbered 999.

CREDITS

Courses at Michigan State University are given on a “semester” basis, and credits earned are semester credits. To convert semester credits to the “term” or “quarter” basis employed in certain other institutions, multiply by 3/2. To convert term credits to semester credits, multiply by 2/3.

Each course usually carries a specific number of credits based upon the number of instructional contact hours and study hours required each week per semester. The earning of a credit requires, as a minimum, one instructor-student contact hour per week per semester plus two hours of study per contact hour; OR two hours of laboratory contact hours per week per semester, plus one additional hour spent in report writing and study; OR other combinations of contact and study hours which constitute an equivalent of these experiences. In all courses taught in the time frame of the regular semester, regardless of format, provision will be made for contact hours and/or study hours which reflect optimal use of the class and study time provided for in the official university calendar. In courses in other time frames provision will be made for contact hours and study time in a combination, which is equivalent to the semester experience.

The number of credits normally carried in a semester is defined in the Undergraduate Education and Graduate Education sections of this catalog.

Persons who are assessed fees for 7 or more credits (6 or more credits for doctoral students) in a semester:

1. Are subject to the housing regulations as stated in University Housing Policy.
2. May utilize the facilities of the Olin Health Center. Information on services available and the charges made may be obtained at the Olin Health Center.
3. May purchase football, basketball, and/or hockey season tickets for themselves and their spouses at 50 percent of the public rate.
4. Are eligible for free admission to other regularly scheduled athletic events.
5. Are eligible for student discounts on series tickets to professional performing arts events at the Wharton Center for Performing Arts and Institute for Arts and Culture.
6. Are eligible to purchase one guest ticket to professional performing arts events at the Wharton Center for Performing Arts and Institute for Arts and Culture. One validated student ID card must be presented with every two student-rate tickets when attending a performance.

VARIABLE CREDIT COURSES

For each variable credit course, the range of credits for which a student may enroll in a given semester and the maximum number of credits that a student may earn in a course with a reenrollment provision shall be specified.

TRANSFER COURSES AND CREDITS

Acceptance of courses and credits deemed suitable for transfer to Michigan State University is determined by faculty in the department, school, or college responsible for instruction in the subject area. Among factors influencing the determination of acceptability are accreditation status, comparable academic quality, and the relationship of the course to other course offerings in the primary administrative unit and other academic units at Michigan State University, and the basis for student performance evaluation in the course. For current course equivalencies, visit www.transfer.msu.edu.

Students requesting transfer credit of course work from a higher-learning institution in China must have a China Academic Degree and Graduate Education Development Center (CDGDC) verification report of the university transcript mailed directly to the MSU Office of Admissions. CDGDC verification does not guarantee the transfer of credit to MSU.

Credit for summer and other nondegree programs offered on campuses of officially recognized international institutions may be subject to an additional review. A transcript demonstrating a
completed course of study may be required to determine the transferability of credit.

Effective Spring 2020 semester, Transfer equivalency policy - Students wanting to transfer a course from another institution into MSU that did not offer S/NS grading or its equivalence during the spring 2020 term may be allowed to transfer that course if they received a 1.0 or higher as a satisfactory (S) grade.

For information on transfer credit beyond sophomore standing, visit www.reg.msu.edu/AcademicPrograms/Text.asp?Section=110#s228.

COURSE FORMATS AND CREDITS

The formats described in this document apply to courses in which credits are earned. (For the definition of a credit, refer to Credits.)

State Authorization
The U.S. Department of Education requires an institution offering distance education programs to acquire authorization from the states in which it operates. In Fall 2015, Michigan State University began participating in the State Authorization Reciprocity Agreement (SARA), which is an agreement among states that establishes national standards for the interstate offering of postsecondary distance education courses and programs. Through SARA, Michigan State University may provide distance education to residents of any other SARA member state without seeking authorization from each SARA member state individually. For a comprehensive list of SARA states and institutions, see http://nc-sara.org/sara-states-institutions.

For program exceptions and a state-by-state summary showing the most recent state authorization information, please visit: https://esp.msu.edu/StateSummary.pdf

For additional information, please visit www.reg.msu.edu/AcademicPrograms/Print.asp?Section=11192 and www.esp.msu.edu/stateauth.asp.

ACADEMIC PROGRAM TERMINOLOGY
The terminology below is used to describe majors, graduate specializations, teaching minors, and sub-categories within them as noted.

For detailed information on academic program terminology, visit www.reg.msu.edu/Read/UCC/terminology.pdf

Area of Emphasis
A set of disciplinary or interdisciplinary courses exclusively for teacher certification programs. Final approval is integral to the degree certification process.

Cognate
A set of related disciplinary or interdisciplinary courses. Final approval is integral to the degree certification process.

Concentration
A set of disciplinary or interdisciplinary courses within a major. Final approval is integral to the degree certification process.

Graduate Certificate
Constructed in selected fields as complements to degree programs or as distinct offerings. Issuance of a graduate certificate signifies completion of course work, specified professional training, skills, or competency levels.
To be enrolled as a visitor, a student must enroll in the same manner as for credit courses at the university. Students enroll for the course through the enrollment system and then contact the Office of the Registrar to have the visitor code added to the record. Enrollment in a course may not be changed to or from a visitor basis except during the first 1/14th of the term of instruction (the 5th day of classes in the fall and spring semesters). Such credits as the course normally carries are included as part of the total credit load for which fees are assessed.

**CONTINUING EDUCATION UNIT**

The Continuing Education Unit (CEU) was created by a national task force. CEUs are granted by a large number of colleges and universities. The International Association for Continuing Education and Training (IACET) provides compliance guidelines and certification of CEU programs. Michigan State University follows the CEU guidelines developed by IACET in awarding CEUs.

**Definition:** One CEU equals 10 contact hours of participation in an organized continuing education experience under responsible sponsorship, capable direction, and qualified instruction. CEUs and academic credits are separate and distinct measures of participation in instructional experiences.

The CEU exists to: 1) establish permanent records for noncredit education experiences, 2) provide a basis for uniform data for institutional program planning, and 3) provide data for national analysis and policy development related to continuing professional development.

For information about the criteria for both Michigan State University and Michigan State Board of Education CEUs and administrative procedures related to CEUs, visit the Office of the Registrar at www.reg.msu.edu You may also contact the Coordinator of Continuing Education Units at 1-517-432-3987, or in 150 Administration Building.

**LIFELONG EDUCATION ENROLLMENT STATUS**

Lifelong Education enrollment status is designed to provide all non-Michigan State University degree students, with the exception of High School students, access to Michigan State University courses. (High School students should refer to the Opportunities for High Achieving High School Students section of this catalog). It is important to note that Lifelong Education is not a college, a major, or an office on campus. It is an enrollment status and the term Lifelong Education is applied to students who are not pursuing a university degree or an Agricultural or Veterinary Technology certificate.

Students enrolling under the Lifelong Education enrollment status should complete the application available on the web at https://admissions.msu.edu/application/app.asp?AL=L. Select either "New Application or "Saved Application."

The Lifelong Education enrollment status permits and facilitates access to Michigan State University courses and workshops (on-campus, off-campus, online, and Study Abroad) for persons not wishing to pursue an undergraduate or graduate Michigan State University degree. This status is limited to persons who have attained a high school diploma or its equivalent.
Students who have obtained a baccalaureate degree will enroll under the Graduate Lifelong Education enrollment status. All others will be enrolled under the Undergraduate Lifelong Education enrollment status.

A person who has been denied admission to an undergraduate degree program at Michigan State University may not enroll under the Lifelong Education enrollment status until at least two years have elapsed from the date of the denial.

Students pursuing Michigan State University degree programs, students pursuing programs in the Institute of Agricultural Technology or English Language Center, students pursuing the Veterinary Technology certificate program, and students who have been recessed or dismissed from Michigan State University or any other college or university are not eligible for enrollment under the Lifelong Education enrollment status.

Rules of Application, Enrollment, and Fees:

(These rules do not apply to High School students. All High School students should refer to the Opportunity for High Achieving High School Students section of this catalog.)

1. Students wishing to enroll under the Undergraduate Lifelong Education enrollment status must have a high school diploma or its equivalent. This information is collected as part of the application procedure. The high school transcript is not normally required as proof.

   Students with a baccalaureate degree will enroll under the Graduate Lifelong Education enrollment status. This information is collected as part of the application procedure. The degree granting transcript is not required as proof.

   Students enrolled under the Lifelong Education enrollment status who wish to be admitted as undergraduate or graduate degree candidates must make regular application for their desired degree programs with the Office of Admissions. They must do so in accordance with established application deadlines for the given semester.

2. All students enrolled under the Lifelong Education enrollment status are assessed fees at the Lifelong Education rates. These rates are set at a per credit amount. There are no additional fees associated with this status (i.e., no late enrollment fees, student taxes, etc.). There are surcharges on some online courses.

3. Prerequisites, grading standards, class assignments, and attendance requirements of a course apply to all students in that course including those enrolled under the Lifelong Education enrollment status.

4. Colleges, departments, and schools determine rules of access to courses for which they are responsible, and may limit enrollment of students enrolling under the Lifelong Education enrollment status.

5. The Office of the Registrar will monitor students’ academic progress each semester to ensure that once nine or more credits have been attempted, acceptable progress has been maintained.

   a. An undergraduate student enrolled under the Lifelong Education enrollment status and who has attempted nine or more credits and has not maintained a 2.0 GPA, will be issued a letter stating he/she is no longer eligible to take courses at Michigan State University. An Academic Advising hold is placed on the student’s record.

   b. A graduate student who has attempted nine or more credits and has not maintained a 3.0 GPA, will be issued a letter stating he/she is no longer eligible to take courses at Michigan State University. An Academic Advising hold is placed on the student’s record.

6. Students enrolled under the Lifelong Education enrollment status are not eligible for most sources of financial assistance including federal financial assistance programs, graduate assistantships, and most fellowships.

7. Students who have completed course work while enrolled under the Lifelong Education enrollment status and who contemplate subsequent admission to degree programs must seek advice from the admitting department or school and college as to the applicability of courses/credits taken while under the Lifelong Education enrollment status. There is no guarantee that these credits will be acceptable. Applicability is subject to the following general limits.

   a. No more than 16 credits taken while enrolled under the Lifelong Education enrollment status may be applied to the undergraduate degree program.

   b. No more than 9 credits taken while enrolled under the Lifelong Education enrollment status may be applied to the graduate degree program. Refer to the Graduate Education section of the catalog for the aggregate limit.

   c. Courses taken under the Lifelong Education enrollment status may not be transferred to Human, Osteopathic, or Veterinary Medical Programs but may be used to waive program requirements at the discretion of the college.

CODE OF TEACHING RESPONSIBILITY

Satisfaction of teaching responsibilities by instructional staff members (herein referred to as instructors) is essential to the successful functioning of a university. This University conceives these responsibilities to be so important that performance by instructors in meeting the provisions of this Code shall be taken into consideration in determining salary increases, tenure, and promotion.

1. Course content: Instructors shall be responsible for ensuring that the content of the courses they teach is consistent with the course descriptions approved by the University Committee on Curriculum and the University Council. Instructors shall direct class activities toward the fulfillment of course objectives and shall evaluate student performance in a manner consistent with these objectives.

2. Course syllabi: Instructors shall be responsible for distributing a course syllabus (either in print or electronic form) at the beginning of the semester. The syllabus shall minimally include:

   a. instructional objectives;

   b. instructor contact information and office hours;

   c. grading criteria and methods used to determine final course grades;

   d. date of the final examination and tentative dates of required assignments, quizzes, and tests, if applicable;

   e. attendance policy, if different from the University attendance policy and especially when that attendance policy affects student grades;

   f. required and recommended course materials to be purchased, including textbooks and supplies; and

   g. any required proctoring arrangements to which students must adhere.

3. Student Assessment and Final Grades: Instructors shall be responsible for informing students in a timely manner as to how they can enhance learning, of the grading criteria and methods used to determine grades on individual assignments. Instructors shall be responsible for assessing a student’s performance based on announced criteria and on standards of academic achievement. Instructors shall submit final course grades in accordance with University deadlines. Assessment methods should be appropriate to the learning objectives of the course. In that context, instructors are expected to take reasonable steps to create an assessment environment that promotes academic integrity. When proctoring or other security measures are necessary to ensure integrity of assessments, such measures should be administered in a manner consistent with the design and delivery of the course.

4. Testing Documents: Instructors shall be responsible for returning to student’s answers to quizzes, tests, and examinations with such promptness to enhance the learning experience. Instructors shall retain final examination answers for at least one semester to allow students to review or to retrieve them. All testing questions (whether on quizzes, tests, or mid-semester or final examinations) are an integral part of course materials, and the decision whether to allow students to retain them is left to the discretion of the instructor.

5. Term Papers and Comparable Projects: Instructors shall be responsible for returning to student’s term papers and other comparable projects with sufficient promptness to enhance the learning experience. Term papers and other comparable projects are
the property of students who prepare them. Instructors shall retain such unclaimed course work for at least one semester to allow students to retrieve such work. Instructors have a right to retain a copy of student course work for their own files.

6. Class Meetings: Instructors shall be responsible for meeting their classes regularly and at scheduled times. To allow units to take appropriate action, instructors shall notify their units if they are to be absent and have not made suitable arrangements regarding their classes.

7. Applicability of the Code of Teaching Responsibility to Student Assistants: Instructors of courses in which assistants are authorized to perform teaching, grading, or other instructional functions shall be responsible for acquainting such individuals with the provisions of this Code and for monitoring their compliance.

8. Instructor Accessibility to Students: Instructors shall be responsible for being accessible to students outside of class time and therefore shall schedule and keep office hours and student conferences. Office hours should be scheduled at times convenient to both students and instructors with the additional option of mutually convenient prearranged appointments for students whose schedules conflict with announced office hours. Each teaching unit shall determine the minimum number of office hours for instructors in that unit. Instructors who serve as academic advisors also shall be responsible for maintaining appropriate office hours before and during enrollment periods. In addition to office hours, instructor accessibility through e-mail and other means is encouraged.

9. Commercialization of Course Notes and Materials: The University prohibits students from commercializing their notes of lectures and University-provided class materials without the written consent of the instructor. Instructors may allow commercialization by including permission in the course syllabus or other written statement distributed to all students in the class.

Hearing Procedures
1. Students may register complaints regarding an instructor's failure to comply with the provisions of the Code of Teaching Responsibility directly with that instructor.
2. Students may also take complaints directly to teaching unit's chief administrators or their designates. If those persons are unable to resolve matters to the student's satisfaction, undergraduate students may request a formal grievance hearing before the University Academic Grievance Hearing Board (see SRR Article 7. III). Unsatisfied graduate students may request a formal grievance hearing before their departmental hearing board (see GSRR Article 5). Before doing this, all students are encouraged to meet with the University Ombudsperson.
3. Such complaints must normally be initiated no later than the middle of the semester following the one wherein alleged violations occurred. Exceptions shall be made in cases where the involved instructor or student is absent from the University during the semester following the one wherein alleged violations occurred.

STUDENT INSTRUCTIONAL RATING SYSTEM (SIRS)

Preamble
The principal objective of the student instructional rating policy is to secure information which is indispensable to implementation of the University's policy of providing its students with instruction of the highest quality. This information is put to two principal uses: (1) providing instructors and teaching units with an accurate account of student response to their instructional practices, to the end that classroom effectiveness be maintained at the highest level of excellence; and (2) providing teaching units with one kind of information to be considered in deciding on retention, promotion, salary, and tenure, to the end that effectiveness in instruction constitutes an important criterion in evaluating the service to the University of members of the teaching faculty. In order to accomplish these objectives more fully, the following procedures were established.

1. Every teaching unit shall approve at least one common student rating instrument through its own channels of participation, in accordance with unit bylaws and customs of collegial decision making. Regardless of the type of instrument adopted, it must prominently display the following notation:

   The Michigan State University CODE OF TEACHING RESPONSIBILITY holds all instructors to certain obligations with respect to, e.g. course content consistent with approved descriptions, timely statement of course objectives and grading criteria, regular class attendance, published office hours, and timely return of examina-
   tions and semester papers. This Code is printed in full in the Aca-
   demic Programs catalog or is available online at www.reg.msu.edu/AcademicPrograms/Text.asp?Sec-
   tion=112&x=514. It includes specifics about complaint procedures
   available to students who believe that their instructors have vio-
   lated the Code.

2. Each teaching unit shall make regular and systematic use of student instructional ratings as part of the unit's evaluation of instructional performance. Each teaching unit shall formulate and promulgate a comprehensive policy covering all aspects of student instructional rating procedures, and shall be responsible for implementing that policy within the framework of the provisions contained in this document. Students shall not be required or requested by faculty members to identify themselves on the rating forms.

3. All instructors, regardless of rank, including graduate assistants, shall use unit-approved student instructional rating forms in all classes (every course, every section, every semester). For team-teaching situations, units shall develop procedures consistent with the intent of these provisions.

4. Beyond the use of a unit approved common form, individual instructors may use other instruments to gather additional information.

5. Results of student instructional ratings shall be used in accordance with the following provisions:
   a. Results shall be returned promptly to the instructor for information and assistance in improving course design and instruction.
   b. Instructors shall have the opportunity to comment, orally and/or in writing, upon the ratings received. These comments shall be taken into account by persons or groups charged with making or advising on personnel decisions.
   c. Results of student instructional ratings shall be systematically consulted, with due regard for strict confidentiality, in conjunction with other means for assessing individual effectiveness, according to the review criteria promulgated within each unit. Other means might include, e.g., classroom visits or consideration of course syllabi, assignments, and examinations.

6. Procedures for implementing the rating process and for utilizing the results shall be promulgated by each teaching unit, subject to the following provisions:
   a. Duly promulgated unit procedures shall be filed in the offices of the appropriate Dean and the Provost, where they will be matters of public record.
   b. Unit administrators are responsible for implementing in their units SIRS procedures which follow fully the requirements of this document.
   c. Teaching units may have the required SIRS instrument(s) administered by a person other than the instructor. If the unit does not administer the instruments, instructors are obligated to do so with due consideration for student confidentiality, and to return all results to unit offices within the time period specified in the unit procedures.
   d. At the time instruments are administered, students shall be informed who will have access to the results and how the results will be used.

STUDENT OPINION OF COURSES AND TEACHING (SOCT)

Preamble
The following policy operates as a complement to the Student Instructional Rating System (SIRS) policy to provide selected public information for students as an aid to choosing courses.

Policy on the Student Public Evaluation System
Students at Michigan State University have an interest in being able to make informed judgments in selecting courses and faculty members as students pursue their academic programs. To this end, the University Committee on Undergraduate Education has framed a set of questions that should provide the type of information that students seek. In order to facilitate the transmission of this information to the students, the following procedures are established:

1. In addition to using standard university or unit-based SIRS forms in every class each semester in compliance with the Student Instructional Rating System policy, the SOCT rating system will be administered in all fall and spring semester undergraduate classes taught by faculty members at the rank of instructor or above, and specialists who are assigned to teach.

2. The SOCT online forms shall be administered within the last two weeks of classes. Students will be notified by e-mail when access is available. The SOCT rating system will be open for a limited, established period at the end of each semester.

3. Results will be disseminated in summary form, displayed by instructor and department, once per year through a Web site, https://soct.msu.edu, accessible to students and other members of the University community with the appropriate identification. A maximum of two recent semesters taught by that instructor over a maximum of two years with a minimum of five student responses will be displayed.
CREDIT BY EXAMINATION

The credit-by-examination option is available to qualified students. Examination may take the form of course or laboratory projects, written or oral reports, evidence of satisfactory skill performance, etc. Enrollment is subject to the provisions detailed below.

Some courses are especially designated for credit by examination in the Schedule of Courses (sections numbered 999). Students who wish to avail themselves of this option must do so through the regular enrollment procedure.

The credit-by-examination option may also be made available in courses not so designated in the Schedule of Courses. Instructors will consider requests from interested students, and may recommend to the unit administrator the offering of an ad hoc credit-by-examination section to accommodate the needs of particular students. Following approval by the unit administrator, regular enrollment procedures apply.

Provisions:
1. The credit-by-examination system is designed to serve students who have the capability and discipline for independent learning. Students who are in academic difficulty should not use it.
2. Enrollment must be by approval of the department or school. Before approval is given, department and school offices and/or designated instructors will provide the student with a written statement of the materials and skills to be mastered, and the manner in which proficiency is to be demonstrated.
3. The credit-by-examination procedure is not intended, and should not be construed, as a tutorial system, or as a system comparable to regular class enrollment: students must not expect tutorial assistance from professors, and professors must not expect students to attend class.
4. Units should exclude from this option those courses in which class attendance and participation are an integral part of the instruction.
5. Academic standards shall be comparable to those applying to regular courses.
   5.1 A failing grade should be reported to the Registrar in cases of failure to appear for the examination, or failure to demonstrate stipulated minimum proficiency. The I-incomplete or DF-deferred or ET-extension symbol for the postponement of a grade may be used in extraordinary circumstances, providing appropriate documentation is placed in the record by the instructor and approved by the assistant or associate dean.
   5.2 Credit-by-examination may not be employed as a means of repeating a course in which a low or failing grade was received, either through regular enrollment or by examination.
6. Implementation of the policy is the responsibility of unit administrators, Deans, and the Associate Provost for Undergraduate Education and Dean of Undergraduate Studies.

DEFINITIONS OF TERMS RELATED TO CALCULATIONS OF CREDITS AND GRADE-POINT AVERAGES

Credits Passed
Total Michigan State University credits passed on the numerical system, the Credit-No Credit (CR-NC) system, the Pass-No Grade (P-N) system, and by examination plus all credits accepted in transfer from other institutions. For a course that was repeated, only the credits associated with the last enrollment are counted in the total number of credits passed.

Credits Repeated
Total credits repeated at Michigan State University and all Michigan State University credits repeated at and accepted in transfer from other institutions.

Credits Attempted
Total Michigan State University credits for which a grade was recorded or for which the W (no grade) symbol was recorded. Credits accepted in transfer from other institutions are included in the total number of Michigan State University credits attempted. Credits in courses taken on the CR-NC system count as credits attempted irrespective of whether the outcome is CR or NC. Similarly included are all credits in courses taken on the P-N system. Credits in courses for which a V symbol was recorded are not included in credits attempted.

Grade-Point Credits
Total number of credits in all Michigan State University courses for which a numerical grade was recorded. Credits for courses repeated on the numerical system count only for the last grade recorded.

Grade-Point System
The grade-point system and the numerical grading scale are identical. Grade points for each course are determined by multiplying the numerical grade by the number of credits for the course.

Grade-Point Average
A measure of the student’s academic performance in Michigan State University courses for which the student received a numerical grade.

Semester
To compute the grade-point average for a semester, divide the total grade points for the semester by the total grade-point credits for the semester.

Cumulative
To compute the cumulative grade-point average, divide the total grade points for all semesters by the total grade-point credits for all semesters.

A cumulative grade-point average of 2.0 is required for graduation from the university for bachelor’s degrees. A cumulative grade-point average of 3.0 is required for graduate degrees.

For information on Grading Systems and Repeating a Course, refer to those statements.

INDEPENDENT STUDY

Definition
At Michigan State University, Independent Study is planned study, highly individualized, not addressable through any other course format, proposed in writing by the student on a standard form, accepted for supervision by a faculty member, and approved by the student’s academic advisor and the teaching unit at the beginning of the semester.

Guidelines
Independent Study should:
1. Consist of work not described in the university catalog in any other format;
2. Be taken under a course number commensurate with the student’s class level, major field, and experience;
3. Relate to a subject for which the student has adequate preparation;
4. Be directed by a faculty member with whom there is periodic contact and consultation throughout the study;
5. Not exceed 8 semester hours of credit in a single semester or summer session;
6. Not exceed 10 percent of the credits earned in a bachelor's program;
7. Be applied for on the form provided by the department or school or college;
8. Be approved on this form before the student enrolls for the course; registration should be completed by the end of the period for adding courses.

GRADING SYSTEMS
Michigan State University employs three systems of grading: a numerical system, a supplemental credit-no credit system, and a limited pass-no grade system.

All grades are final and may not be changed by re-examination or by the submission of additional work. See Repeating a Course.

The Numerical System
The numerical system consists of the following scale. 4.0 - 3.5 - 3.0 - 2.5 - 2.0 - 1.5 - 1.0 - 0.0.

Grading Procedure of the Numerical System:
1. Credit is awarded at the following minimum levels: 1.0 for undergraduate students.
   2.0 for graduate students. However, all grades are counted in the calculation of the grade-point average (GPA).
2. The minimum cumulative grade-point average required for graduation is a 2.0 for undergraduates and 3.0 for graduate students.
3. In particular graduate programs the number of 2.0 grades acceptable for credit may be expressly restricted and/or levels higher than the 2.0 minimum may be established for the fulfillment of degree requirements.
4. Grades given in courses completed under enrollment on the numerical system cannot be converted to credit or no-credit under the credit-no credit system.

As the Spring 2020 novel coronavirus pandemic required significant changes to instruction, S-Satisfactory and NS-Not Satisfactory grades were made available to undergraduate and graduate students for Spring 2020 classes.

S-Satisfactory – Credit granted represents a level of performance equivalent to 1.0 and higher for undergraduate students and 2.0 and higher for graduate students. NS-Not Satisfactory – No credit granted represents a level of performance below 1.0 for undergraduate students and below 2.0 for graduate students except for the College of Veterinary Medicine Doctor of Veterinary Medicine (DVM) students where NS represents performance below 1.0.

The Credit-No Credit System
The credit-no-credit system is intended to allow students to study in areas outside the major field of study without jeopardizing their grade-point averages. In the credit-no credit system the following symbols are used.

CR-Credit—means that credit is granted and represents a level of performance equivalent to or above the grade-point average required for graduation. Thus, undergraduate students must perform at or above the 2.0 level before credit is granted; graduate students must perform at or above the 3.0 level.

NC-No Credit—means that no credit is granted and represents a level of performance below the grade-point average required for graduation, i.e., below 2.0 for undergraduate students, below 3.0 for graduate students.

Grading Procedure of the CR-NC System
1. Grades on the CR-NC system are not included in computing the semester or cumulative grade-point average.
2. Enrollment on a CR-NC basis is recorded with the academic advisor and with the Registrar. The instructor's class list does not indicate which students are enrolled on CR-NC basis.
3. When the course is completed, all students are graded on the numerical system.
4. The Registrar then converts the numerical grades to credit or no credit in accord with the definitions of CR-NC stated above, but retains the numerical grades in the student's academic records.
5. When a student changes a major preference or a major, the Registrar will convert those letter grades to numerical grades in courses that are necessarily graded on the numerical system in the new major upon request by the student's college.

Enrollment in the CR-NC System
Enrollment on a CR-NC basis is open to students, at their option, subject to the following conditions:
1. Course prerequisites and other criteria for enrolling in any course shall be determined by the department or college offering the course and apply equally to both the numerical and the CR-NC systems.
2. The choice of numerical or CR-NC system does not affect admission to the course.
3. All courses in every department and college are available on a CR-NC basis unless these courses are:
   a. Used to satisfy the Tier I writing requirement, the Tier II writing requirement, the university mathematics requirement, and Integrative Studies Program requirements, or
   b. Designated as Type 1, Type 2, or Type 3 courses under the remedial-developmental-preparatory course policy.
   c. Specifically excluded from CR-NC enrollment by the department, school, or college of the student's major preference or major, or the unit recommending the student for certification.
4. Limitations:
   a. No undergraduate student may enroll in more than a total of 20 credits on the CR-NC system.
   b. The limitations on the number of credits a graduate student may take in a given semester on the CR-NC basis, and the total number of credits that may be taken in a given degree program on a CR-NC basis, shall be established by the college, department, or school, or the unit recommending the student for certification in which the student is a major.
5. Each department, school, or college, or the unit recommending the student for certification shall designate those courses that its majors or candidates for certification may not take on the CR-NC system.
6. Choice of the CR-NC system must be communicated by the student to the Office of the Registrar within the first 1/14th of the term of instruction (the 5th day of classes in the fall and spring semesters) and may not be changed after that date.
7. Any course taken more than once must be repeated on the same grading system under which the course was completed the first time, except where standard require-
ments to the contrary must be satisfied in order to meet graduation requirements.

The Pass-No Grade System

This system is used only in courses specifically approved by the University Committee on Curriculum. Non-credit courses and those involving field experience are the usual types of courses approved for P-N grading. Courses approved for P-N grading are so marked in the Schedule of Courses on the web.

In the pass-no grade system the following symbols are used:

- **P-Pass**—means that credit is granted and that the student achieved a level of performance judged to be satisfactory by the instructor.

- **N-No Grade**—means that no credit is granted and that the student did not achieve a level of performance judged to be satisfactory by the instructor.

GRADE MARKERS

Conditional Pass Marker

The Conditional Pass (CP) marker is used only for graduate-professional students in the College of Human Medicine and the College of Veterinary Medicine when all of the following criteria are met:

1. The student is enrolled in a 500- or 600-level course that is administered by the College of Human Medicine or College of Veterinary Medicine. The University Committee on Curriculum approved the use of the Pass-No Grade (P-N) grading system for College of Human Medicine students who are enrolled in 500- and 600-level courses in this college.
2. The student has either:
   a. met almost all of the course objectives (criteria for passing), but is deficient in a specific, definable course segment; or
   b. completed all of the course requirements but failed to meet the overall pass level by a narrow margin (e.g., received a 68 percent overall score where 70 percent is the pass level).
3. The course instructor believes that the student's overall performance has been such that the student should not be required to repeat the entire course and that the character of the deficiency is specific and identifiable and is likely to be remediable within a foreseeable time span and through specifiable action by the student.

The required work must be completed and a grade (P or N or numeric) must be reported to the Office of the Registrar no later than the middle of the student's next semester in attendance, if that semester is within one calendar year following the receipt of the CP. An exception may be made if an instructor submits an administrative action form stating that the course structure necessitates delay of remediation grading until the end of the student's next semester in attendance (excluding summer session).

When the specified remediation activity is completed or the time allowed for remediation has expired, the grade of P or N or numeric is assigned. The Conditional Pass marker remains on the student's academic record. Thus, the completion of the remediation activity within the time allowed results in a grade of CP/P or CP/1.0, and failure to complete the specified remediation activity by the due date results in a grade of CP/N or CP/0.0.

Visitor

The V-Visitor—is recorded on the transcript in credit courses for students enrolled as a visitor on a non-credit basis. Choice of the V-Visitor must be communicated by the student to the Office of the Registrar during the first 1/14th of the term of instruction (the 5th day of classes in the fall and spring semesters) and may not be changed after that date.

POSTPONEMENT OF GRADING

When special or unusual circumstances occur, the instructor may postpone assignment of the student's final grade in a course by use of an I-Incomplete, a DF-Deferred, or an ET-Extension marker.

I-Incomplete

The I-Incomplete may be given only when: the student (a) has completed at least 6/7 of the term of instruction, but is unable to complete the class work and/or take the final examination because of illness or other compelling reason; and (b) has done satisfactory work in the course; and (c) in the instructor's judgment can complete the required work without repeating the course.

Provided these conditions are met, the instructor electing to give an I-Incomplete files an Agreement for Completion of (I) Incomplete at the time course grades are due. This agreement specifies what the student must do, and when. The department or school office gives a copy to the student, and retains a copy for at least one year.

The required work must be completed, and a grade must be reported to the Office of the Registrar, no later than the middle of the student's next semester in attendance (summer session excluded) if that semester is within one calendar year following receipt of the I-Incomplete. Exception to this deadline: An instructor may submit an Administrative Action stating that course structure necessitates delay of make-up grading until the end of the student's next semester in attendance. The I-Incomplete, in addition to the grade reported, will remain on the student's academic record.

Failure to complete the required work by the due date will result in a grade of I/0.0, I/NC or I/N, depending on the grading system under which the student was enrolled. (A student who does not register for Michigan State University courses subsequent to receipt of an I-Incomplete has one calendar year to complete the required work; after that, the I-Incomplete will become U-Unfinished and will be changed to I/U on the student's academic record, and the course may be completed only by re-enrollment).

An extension of time for completion of the required work may be approved by the college offering the course only by means of an Administrative Action documenting physician-certified illness or other extraordinary circumstances.

An Extension of Time is a formal agreement between the instructor and the student. After an Extension of Time has been filed, the work must be done by the deadline determined by the instructor or the I-Incomplete will be changed to I/0.0, I/NC, or I/N depending on the grading system under which the student was enrolled.

DF-Deferred

The DF-Deferred applies to the numerical, the CR-NC, and P-N grading systems.

Given only to graduate students who are doing satisfactory work but cannot complete the course work because of reasons acceptable to the instructor.
The required work must be completed and a grade reported within six months (190 calendar days from the last class day of the term of instruction), with the option of a single six-month extension (190 calendar days). If the required work is not completed within the time limit, the DF-Deferred will become U-Unfinished and will be changed to DF/U. This rule does not apply to graduate thesis or dissertation work.

ET-Extension
The ET-Extension applies to the numerical, the CR-NC, and P-N systems.
Given to undergraduate, graduate, and graduate-professional students only in courses specifically approved by the University Committee on Curriculum. Approval requires specification of the time period within which work must be completed. Courses that involve field experience or thesis work and courses in which work normally extends beyond one semester are the types of courses normally considered.
A final grade must be reported upon completion of the final course in the sequence or in the time approved for the completion of the work. If a final grade is not reported in these periods, the ET will be changed to ET/0.0, ET/NC or ET/N, depending on the grading system under which the student was enrolled.

REPEATING A COURSE
An undergraduate student who received a grade of 2.0 or above, CR, or P in a course may not repeat the course on a credit basis. An undergraduate student may repeat no more than 20 credits in courses in which grades below 2.0 were received.
A graduate student who received a grade of 2.0 or above, CR, or P in a course may not repeat the course on a credit basis with the following exception: with the approval of the associate dean, a graduate student may repeat a course in which a grade of 2.0 or 2.5 was received. The number of credits that a graduate student may repeat is determined by the student's academic advisor or guidance committee, in accordance with unit policies.
Whenever a course is repeated on a credit basis, the last grade and credits earned completely replace the previous grade in the satisfaction of requirements and computation of the cumulative grade-point average. All entries remain a part of the student's permanent academic record.
Any course repeated for credit must be taken on the same grading system under which the course was taken the first time, except where standard requirements to the contrary must be satisfied in order to meet graduation requirements.
Credit by Examination may not be used to repeat a course in which a grade below 2.0 was received.
A student who has taken a course as a visitor may subsequently enroll in the course for credit with the approval of his or her advisor.

Financial Aid and Repeats
Federal financial aid regulations limit the number of times a student may repeat a course and receive financial aid for that course. The following guidelines apply to students eligible for federal aid.
1. A student may receive aid when repeating a course for the first time.
2. A student may receive aid when repeating a course that was previously failed (received a 0.0 or No Pass), regardless of the number of times the course was attempted and failed.
3. A student may receive aid to repeat a previously passed course one additional time.
4. Once a student has completed any course twice with a passing grade, he/she is no longer eligible to receive aid for that course.
5. If a student retakes a course that is not aid eligible, a recalculation of aid is done to exclude the credits for the repeated course. Students are notified by the Office of Financial Aid if their aid needs to be reduced.

CORRECTION OF GRADES
Once recorded in the Office of the Registrar, a student's grade may not be changed unless the first grade was in error. An Administrative Action must be submitted certifying the reasons why the first grade is in error. The request must be approved by the instructor, the chairperson of the department or school offering the course, the associate dean of the college in which the course is offered, and the student's associate dean. The time limit for the correction of grades is 30 days after the start of the subsequent semester or summer session.
The Office of the Registrar reserves the right to audit student records and to correct them as necessary.

INTEGRITY OF SCHOLARSHIP AND GRADES
(Note: This policy is not applicable to students in the MSU College of Law degree programs. The Law College follows American Bar Association requirements and the Law Students Rights and Responsibilities document.) http://sp lif e. studentlife. msu. edu/ law- students- rights- and- responsibilities
The following statement of university policy addresses principles and procedures to be used in instances of academic dishonesty, violations of professional standards, and falsification of academic or admission records, herein after referred to as academic misconduct. [See General Student Regulation 1.00, Protection of Scholarship and Grades.]
1. The principles of truth and honesty are recognized as fundamental to a community of scholars. The university expects both instructors and students to honor these principles and, in so doing, to protect the validity of university education and grades. Practices that maintain the integrity of scholarship and grades include providing accurate information for academic and admission records, adherence to unit-approved professional standards and honor codes, and completion of original academic work by the student to whom it is assigned, without unauthorized aid of any kind. To encourage adherence to the principles of truth and honesty, instructors should exercise care in planning and supervising academic work, and implement proctoring standards appropriate to the design of the course.
2. If an instructor alleges a student has committed an act of academic misconduct, the instructor is responsible for taking appropriate action. Depending on the instructor's judgment of a specific instance, the instructor may give the student a penalty grade. A penalty grade may be a reduced score or grade for the assignment or a reduced grade for the course. [For a definition of "penalty grade", see Student Rights and Responsibilities (SRR) 11 and Graduate Students Rights and Responsibilities (GSSR) 8.1.18.]
3. When an instructor gives an undergraduate or graduate student a penalty grade for academic misconduct, the instructor must complete and submit an Academic Dishonesty Report (available on the Registrar’s Form Menu under Instructor Systems). The report will be sent to the student, the student's dean, the Dean of the Graduate School (for graduate students) or Dean of Students (for undergraduate students) and be added to the student's academic record provisionally. It will remain in the student's record unless: a) the student successfully grieves the allegation; b) the instructor filing the re-
port requests it be removed; or, for undergraduates only, c) upon conferral of their degree if only one report has been filed, the student has successfully completed the required course on academic integrity, and no additional sanctions were requested.

4. When completing the Academic Dishonesty Report, if the instructor gives a failing grade in the course, the instructor may request the student’s academic dean to impose sanctions in addition to the failing grade.

5. When in the judgment of the student’s academic dean, a sanction in addition to a penalty grade is warranted (e.g., dismissal from a unit or program), the dean may call for an academic disciplinary hearing. In calling for an academic disciplinary hearing, the student’s academic dean may act independently or in response to a request by the instructor. [See SRR 7.V., GSRR 5.5., and Medical Student Rights and Responsibilities (MSRR) 5.3.]

6. A student accused of academic misconduct may request an academic grievance hearing to contest the allegation before the appropriate hearing board. In cases involving academic misconduct, no student may be dismissed from a course or program of study without an academic disciplinary hearing.

7. On the first offense of academic misconduct, the student must complete an educational program on academic integrity and academic misconduct provided by the Dean of Students for undergraduate students or the Dean of the Graduate School for graduate students.

8. In cases involving undergraduate students in which the student’s academic dean, or designee, calls for an academic disciplinary hearing, the student’s academic dean will refer the case to the Dean of Students. The Dean of Students will notify the student in writing of the call for a disciplinary hearing and will invite the student to a meeting to determine the appropriate judiciary for the hearing. [See SRR 7.V.]

9. In cases involving graduate students in which the student’s academic dean, or designee, calls for an academic disciplinary hearing, the student’s academic dean will inform the student and then refer the case to the Dean of the Graduate School. The Dean of the Graduate School will notify the student in writing of the call for a disciplinary hearing and will invite the student to a meeting to discuss the hearing process. [See GSRR 5.5.]

10. Either party may appeal a decision of an administrative disciplinary hearing or a disciplinary hearing board to the appropriate appellate board. [See SRR 7.VII., GSRR 5.4.12., and MSRR 5.8.]

PERSONAL INTEGRITY AND CONDUCT

The university expects student conduct and behavior to reflect qualities of good citizenship. The out-of-classroom activities of Michigan State University students should reflect favorably upon the institution and should indicate the personal integrity of the individual.

See Spartan Life for specific policies, ordinances and regulations that define some of the relevant university expectations. Visit http://aplife.studentlife.msu.edu.

THE ACADEMIC RECORD

A Grade Report of a student’s grades earned in each course is available to the student at the end of each semester or summer session at www.stuinfo.msu.edu.

Due to unsatisfactory work, a student may be warned, placed on probation, academically recessed, or academically dismissed from the university.

A permanent record of all the student’s courses, credits and grades earned is maintained by the Office of the Registrar, 150 Administration Building. The permanent record reflects all courses taken while enrolled at any academic level at Michigan State University. Records are regularly audited and corrected as necessary. The student should maintain a record of courses, credits and grades each semester or summer session and check from time to time to see that this record agrees with that of the university. The record may also help the student determine eligibility for any activity that requires meeting specific scholastic standards.

TRANSCRIPTS

A copy of a student’s complete permanent record is available to the student upon receipt of a request. The permanent record reflects all courses taken while enrolled at any academic level at Michigan State University. Transcripts can be requested at https://reg.msu.edu/Transcripts/Transcript.aspx. Requests can also be made in person or by writing to the Office of the Registrar, Hannah Administration Building, 426 Auditorium Road, Room 25
Certified Copy of Diploma

A certified copy of the student's diploma is available to the student. The student must bring the original diploma and the $25 fee for each copy to the Office of the Registrar, Hannah Administration Building, 426 Auditorium Road, Room 150, East Lansing, Michigan 48824-2603. Honorary Degrees

Michigan State University has been awarding honorary degrees since 1885 to honor distinguished persons for their contributions to their field and to society. Nominees exemplify the values inherent in MSU’s mission. Past recipients include accomplished scientists, humanists, scholars of the arts, members of the professions, and persons in public life or business. Invitations to nominees are issued only by the President.

For more information on the nomination process, visit www.msu.edu/~vprgs/honorarydeg/HonoraryDegrees.htm.

Posthumous Degrees

A posthumous degree may be awarded in the name of a deceased student upon the recommendation of the student’s major department and college when the student was in good academic standing and had made substantial progress towards the degree.

The chairperson of the department responsible for the administration of the degree program of the deceased student may submit a recommendation to the dean, who, in turn, may submit a recommendation to the registrar for records verification. The registrar will forward to the provost. If the provost endorses, then the recommendation will be sent to the president to be considered for final approval. The transcript bears the notation, “Degree granted posthumously.”

Mark of Achievement

On rare occasions, a deceased student who is ineligible for a posthumous degree may be recognized for his/her academic work by means of receiving a Mark of Achievement certificate.

With the support of the academic unit, a request is initiated by the student’s college dean. Undergraduate and graduate students who are in good academic standing and in the judgment of the college dean may be recommended for a Mark of Achievement. The college dean shall provide a recommendation along with a verification of the student’s academic standing to the Associate Provost for Academic Services for review and recommendation and then to the Provost for approval. The Provost shall notify the Registrar and the Mark of Achievement shall be mailed or delivered to the academic unit for distribution to the family.

Student Records and the Federal Family Educational Rights and Privacy Act (FERPA)

Michigan State University complies fully with the letter and spirit of the Federal Family Educational Rights and Privacy (FERPA) which governs access to, and confidentiality of, student records.

As a means of complying with this act, the university has developed the Michigan State University Access to Student Information. These Guidelines are reproduced below.

Michigan State University Access to Student Information

Introduction

Michigan State University (“the University”) maintains student education records and is responsible for their access to and release in accordance with the Family Educational Rights and Privacy Act, 20 U.S.C. § 1232g (“FERPA”). It is the policy of the University to comply with FERPA.

Reason for Guidelines

These guidelines comply with standards established in FERPA. The guidelines govern the procedures for maintenance and access to student education records held by the University. The guidelines have a two-fold purpose:

1. To protect a student’s right to privacy of information in the University’s possession concerning the student; and
2. To provide guidance on release or disclosure of student information required by law and as necessary for the effective functioning of the campus community.

Who Should Read These Guidelines

All students, faculty and staff with access to student education records should read and be familiar with these guidelines.

Notification of Student Rights under FERPA

All currently enrolled students at the University are notified annually of their rights under FERPA. These rights include:

1. The right to inspect and review the student’s education records.
2. The right to request amendment of education records the student believes are inaccurate, misleading, or otherwise in violation of the student’s privacy rights under FERPA.
3. The right to provide written consent before personally identifiable information from the student’s education records is disclosed except to the extent that FERPA authorizes disclosure without consent.
4. The right to file a complaint with the U.S. Department of Education concerning any alleged violation of the student’s rights under FERPA.

Definitions

The following definitions apply to terms as they are used in these guidelines.

Directory Information

Directory information is information in a student’s education record which may be disclosed to outside parties without a student’s prior written consent. While disclosure of directory information about a student is not generally considered harmful or an invasion of privacy under FERPA, FERPA does not require the University to disclose directory information to outside parties. Information that the University has designated as directory information is listed in the Michigan State University Notification of Student Rights under FERPA available at https://www.reg.msu.edu/read/NotificationandDirectoryInformationNotice.pdf.
Currently enrolled students may restrict the release of directory information by notifying the Office of the Registrar or updating their directory restrictions online through the StuInfo web site at https://stuinfo.msu.edu/.

Education Records
Education records are those records, files, documents, and other materials which contain information directly related to a student and are maintained by the University or by a party acting on behalf of the University. This includes information or data recorded in any medium including, but not limited to, handwriting, print, tapes, film, microfilm, microfiche, and any electronic storage or retrieval media.

Education records exclude: (1) records that are in the sole possession of school officials and are accessible only to the person(s) with权限 to dispense the information; (2) law enforcement or campus security records that are maintained or created by the law enforcement unit for the purpose of law enforce- ment; (3) employment records relating to students who are employed by the University, unless the employment is a result of his/her status as a student; (4) records created or maintained by a physician, psychiatrist, psychologist or other recognized professional or paraprofessional, that are used only in connection with the treatment of the student and are not accessible to anyone other than those providing such treatment; and (5) records that contain information about an individual after that person is no longer a student at the University, unless the records pertain to the individual’s previous attendance as a student.

FERPA

Legitimate Educational Interest
An individual has a legitimate educational interest in education records if the information or record is relevant and necessary to the accomplishment of some employment or other institutional task, service, or function.

Parent
A parent is an individual who is the natural parent, the guardian, or the individual acting as the parent in the absence of a parent or guardian, of a student at the University.

Personally Identifiable Information
Personally identifiable information is any information that, alone or in combination, is linked or linkable to a specific student that would allow a reasonable person in the campus community, who does not have personal knowledge of the relevant circumstances, to identify the student with reasonable certainty. Examples of personally identifiable information include, but are not limited to: (1) the student’s name; (2) name of the student’s parent or other family member; (3) the address of the student or student’s family; (4) a personal identifier, such as a student’s social security number or student number; (5) the student’s date and place of birth; (6) the student’s mother’s maiden name; (7) biometric record; and (8) a list of personal characteristics or other information that would identify the student with reasonable certainty. Personally identifiable information also includes information requested by a person who the University reasonably believes knows the identity of the student to whom the education record relates.

School Official
A school official is a person employed by the University in an administrative, supervisory, academic, research, or support staff position; contractors, consultants, volunteers and other non-employees performing institutional services and functions; and a person serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks.

Student
A student is any individual with respect to whom the University maintains education records and has been in attendance at the University. Attendance is defined as physical attendance or participation in an academically-related activity, including but not limited to the submission of an assignment, taking an exam, or participation in a study group or online discussion about academic matters. A student’s education records are protected under these guidelines beginning on the first day of the first term for which they have enrolled. No student shall be required to waive his or her rights under FERPA as a condition of admission or for the receipt of any services or benefits.

Facilitate all responses to third party requests, subpoenas, or judicial orders for student education records.

Oversee campus compliance, education and awareness of FERPA.

Procedures
Disclosure to Students

Inspection and Review
A currently enrolled or former student has the right to inspect and review his/her education records upon proper identification. All such requests must be made to the Office of the Registrar. Requests for access to records must be granted within a reasonable period of time, but in no case later than forty-five (45) days from the date of request. If a student is denied access to his/her education records, the student may appeal in writing to the official maintaining the records or to the University Registrar. If the student is denied access, the student will be given an opportunity to place a written statement with the hearing officer's report.

Amendment of Record
A currently enrolled or former student has the right to request an amendment of records that he/she believes are inaccurate, misleading, or otherwise in violation of the student’s privacy rights under FERPA. A request to amend a record should be made in writing to the school official maintaining the record, clearly identifying the part of the record the student wants changed and specifying why it should be changed. If the student’s request to amend is denied, the school official will notify the student in writing of the decision and the right to a formal hearing on the matter.

A request for a formal hearing on the denial of a request to amend records must be made in writing to the University Registrar. Hearings will be conducted by a school official, otherwise known as the hearing officer, who does not have a direct interest in the outcome of the hearing. The hearing officer will provide notice to the student, reasonably in advance, of the date, place, and time of the hearing. The student will be afforded a full and fair opportunity at the hearing to present relevant evidence and is entitled to have a representative or advisor attend the hearing. Following the hearing, the hearing officer will prepare a report discussing his/her decision. Copies of the report will be distributed to the parties who have a legitimate educational interest in the report. The hearing officer decides the student’s request to amend the record was improperly denied, the record shall be amended accordingly. Should the hearing officer uphold the denial, the student may request a hearing of the hearing officer’s decision, in writing, to the Associate Provost for Academic Services and Enrollment Management.

A currently enrolled or former student has the right to request an amendment of records that he/she believes are inaccurate, misleading, or otherwise in violation of the student’s privacy rights under FERPA. A request to amend an education record to which the student may have access under FERPA and these guidelines, the record shall be made available to the student.

Applicants have the right to review records and data submitted for admission with an admissions officer. Those denied admission must exercise this right within six (6) months of the date of denial. The decision to admit or deny admission is, however, a composite professional decision not subject to review.

Amendment of Record
A currently enrolled or former student has the right to request an amendment of records that he/she believes to be inaccurate, misleading, or otherwise in violation of the student’s privacy rights under FERPA. A request to amend a record should be made in writing to the school official maintaining the record, clearly identifying the part of the record the student wants changed and specifying why it should be changed. If the student’s request to amend is denied, the school official will notify the student in writing of the decision and the right to a formal hearing on the matter.

Following the hearing, the hearing officer will prepare a report discussing his/her decision. Copies of the report will be distributed to the parties who have a legitimate educational interest in the report. The hearing officer decides the student’s request to amend the record was improperly denied, the record shall be amended accordingly. Should the hearing officer uphold the denial, the student may request a hearing of the hearing officer’s decision, in writing, to the Associate Provost for Academic Services and Enrollment Management.

A currently enrolled or former student has the right to request an amendment of education records setting forth his/her disagreement with the decision. The student’s statement and the Appeal Committee’s decision will be maintained as part of the student’s education record for as long as the University maintains the record and may be disclosed to an authorized party when requested. The student also has the right to file a complaint with the Student Privacy Policy Office at the U.S. Department of Education.

Letters of Recommendation
Students may not have access to letters of recommendation or statements of evaluation obtained or prepared before January 1, 1975. A student may waive his/her right to access letters of recommendation obtained after January 1, 1975. A student who wishes to waive his/her right to access letters of recommendation must provide a signed statement of waiver to the author of the letter or the Office of the Registrar.

Disclosure to Third Parties
Personally identifiable information from a student’s education records may not be released to third parties without the student’s prior written consent, with certain exceptions. The exceptions to the consent requirement are limited to the following:

1. Disclosure to School Officials. Personally identifiable information from education records may not be disclosed without written consent to school officials who have a legitimate educational interest in the records. These records may be disclosed only on a need to know basis. Specifically, a school official requesting information must have a legitimate need for the requested information for the effective functioning of his/her position or office. Determination as to whether the need to know requirement has been satisfied is made by the head administrator for the unit retaining the information or by

27
the Office of the Registrar. All information released may only be used for the purpose intended. For purposes of the school official's exception, education records may also be disclosed without consent to contractors, consultants, and other outside parties to whom the University has outsourced institutional services or functions that it would otherwise use employees to perform, provided that the outside party is under the direct control of the University, and the use and maintenance of the education record is subject to the same conditions governing the use and redisclosure of education records that apply to other school officials. The outside party must sign a statement indicating its compliance with the non-redisclosure provisions of FERPA prior to receiving any student information.

2. Disclosure to Officials of Another School. Personally identifiable information from education records may be disclosed to officials of another school where the student seeks or intends to enroll, or where the student has already enrolled if the disclosure is for purposes related to the student's enrollment or transfer.

3. Disclosure of Directory Information. Information that the University has designated as personally identifiable information from education records about a student, including directory information, may be disclosed without the student's consent.

4. Disclosure pursuant to Judicial Order. Personally identifiable information from education records may be released to comply with a judicial order or a lawfully issued subpoena. As permitted by law, reasonable attempts will be made to notify the student of the judicial order or subpoena in advance of compliance.

5. Disclosure pursuant to Requests for Financial Aid. Personally identifiable information from education records may be disclosed to any employee of the University to: (a) determine eligibility for a financial aid award; (b) administer the financial aid program; or (c) improve instruction. Requests for access to student education records under the studies exception must be approved by the Registrar. Such requests will be fulfilled, if possible, by providing a copy of all identification of the student that has been removed. The written agreement between the University and the organization conducting the study must specify the purpose, scope, and duration of the study and the information to be used. The University must require the organization to use personally identifiable information from education records only to meet the purposes of the study; any disclosures of personally identifiable information to individuals in the organization who have a legitimate interest in the information; and require the organization to destroy all personally identifiable information within a specified time period when the information is no longer needed for the purposes of the study.

6. Disclosure to Federal and State Authorities. Authorized representatives of the U.S. Comptroller General, the U.S. Attorney General, the U.S. Secretary of Education, or state or local educational authorities, may have access to education records. Disclosures under this provision may be made in connection with an audit or evaluation of federal- or state-supported education programs, or for the enforcement of or compliance with federal legal requirements that relate to those programs. These entities may make further disclosures of personally identifiable information to outside entities that are designated by them as their authorized representatives to conduct any audit, evaluation, or compliance activity on their behalf.

7. Disclosure to Accrediting and Professional Associations. Designated representatives of accrediting and other professional organizations with which the University is affiliated may have access to personally identifiable information to the extent necessary to fulfill the obligation of that accreditation organization.

8. Disclosure of Student's Delinquency or Payment. Personally identifiable information from education records may be disclosed as necessary to effect collection of a student's financial obligations to the University.

9. Disclosure of Litigation against the University. Personally identifiable information from education records deemed necessary for the defense of the University or in a suit filed by a student may be disclosed to attorneys representing the University.

10. Disclosure pursuant to the University's Obligations to Support Study and Research. The University may disclose personally identifiable information from a student's education records without consent if the disclosure is to an organization conducting studies for, or on behalf of, the University to: (a) develop, validate, or admin-ister predictive tests; (b) administer student assistance programs; or (c) improve instruction. Requests for access to student education records under the studies exception must be approved by the Registrar. Such requests will be fulfilled, if possible, by providing a copy of all identification of the student that has been removed. The written agreement between the University and the organization conducting the study must specify the purpose, scope, and duration of the study and the information to be used. The University must require the organization to use personally identifiable information from education records only to meet the purposes of the study; any disclosures of personally identifiable information to individuals in the organization who have a legitimate interest in the information; and require the organization to destroy all personally identifiable information within a specified time period when the information is no longer needed for the purposes of the study.

Freedom of Information Act

The Freedom of Information Act ("FOIA"), M.C.L. 15.231 et seq., regulates and sets requirements for the disclosure of public records by all public bodies in the state. FOIA provides that all public records of a public body are subject to disclosure unless specifically exempted by the Act. A public body may, but is not required to, withhold from disclosure those categories of public records exempt from disclosure under the Act. FOIA requests seeking student records, including directory information about a student, may be denied on a statutory exemption for records protected by FERPA, privacy, or other available exemptions. All FOIA requests must be submitted to:

If circumstances arise involving release of confidential information that are not covered in the University's Academic Programs catalog or by these guidelines, please contact the Office of the Registrar for assistance.

PROTECTION OF UNIVERSITY FUNCTIONS AND SERVICES GENERAL STUDENT REGULATIONS, 5.00

Functions, services, and processes of the University must be protected if the institution is to be effective in discharging its responsibilities; therefore, no student shall:

5.01 provide false information for the purpose of gaining benefit for oneself or others to any office, agency, or individual acting on behalf of the University.

5.02 interfere with the functions and services of the University (for example, including, but not limited to, classes, social, cultural, and athletic events, computing services, registration, housing and food services, governance meetings and judicial hearings) such that the function or service is obstructed or disrupted.

5.03 alter or forge any University document and/or record, including identification materials, issued or used by the University.
POLICY ON RELIGIOUS OBSERVANCE

It has always been the policy of the University to permit students and faculty to observe those holidays set aside by their chosen religious faith. The faculty and staff should be sensitive to the observance of these holidays so that students who absent themselves from classes on these days are not seriously disadvantaged. It is the responsibility of those students who wish to be absent to make arrangements in advance with their instructors. It is also the responsibility of those faculty who wish to be absent to make arrangements in advance with their chairpersons, who shall assume the responsibility for covering their classes.

As Michigan State University has become increasingly multicultural, the incidence of conflicts between mandatory academic requirements and religious observances has increased. In the absence of a simple and dignified way to determine the validity of individual claims, the claim of a religious conflict should be accepted at face value. Be aware that some degrees of observance may have a more extensive period of observance. Instructors may expect a reasonable limit to the number of requests by any one student. Some instructors attempt to cover all reasons for student absences from required academic events such as quizzes or exams with a blanket policy, e.g., allowing the student to drop one grade or two quizzes without penalty. If this is meant to extend to religious observances, the instructor should state this clearly at the beginning of the term. If instructors require make-up exams, they retain the right to determine the content of the exams and the conditions of administration, giving due consideration to equitable treatment.

POLICY ON GRIEF ABSENCE

The faculty and staff should be sensitive to and accommodate the bereavement process of a student who has lost a family member or who is experiencing emotional distress from a similar tragedy so that the student is not academically disadvantaged in their classes or other academic work (e.g., research). For undergraduate and master’s (Plan B) students without research responsibilities, it is the responsibility of the student to: a) notify the Associate Dean or designee of their college of the need for a grief absence in a timely manner, but no later than one week from the student’s initial knowledge of the situation, b) provide appropriate verification of the grief absence as specified by the Associate Dean, and c) complete all missed work as determined in consultation with the instructor. It is the responsibility of the Associate Dean or designee to: a) determine with the student the expected period of absence – it is expected that some bereavement processes may be more extensive than others depending on individual circumstances, b) notify the faculty that the student will be absent, and c) receive verification of the authenticity of a grief absence request upon the student’s return. It is the responsibility of the instructor to work with the student to make reasonable accommodations and to include appropriate language describing such accommodations in their course syllabus, so that the student is not penalized due to a verified grief absence.

For master’s (Plan A), master’s (Plan B) with research responsibilities, and doctoral students, it is the responsibility of the student to: a) notify their advisor/major professor and faculty of the courses in which they are enrolled of the need for a grief absence in a timely manner, but no later than one week from the student’s initial knowledge of the situation, b) provide appropriate verification of the grief absence as specified by the advisor/major professor and faculty, and c) complete all missed work as determined in consultation with the advisor/major professor and faculty. It is the responsibility of the advisor/major professor to: a) determine with the student the expected period of absence – it is expected that some bereavement processes may be more extensive than others depending on individual circumstances, b) receive verification of the authenticity of a grief absence request upon the student’s return, and c) make reasonable accommodations so that the student is not penalized due to a verified grief absence. If employed as a RA or TE, the graduate student must also notify their employer. Both employer and student will swiftly communicate to determine how the student’s responsibilities will be covered during their absence. Graduate teaching assistants (TAs) should refer to the bereavement policy in the MSU GEU CBU Article 18.

Students in the graduate professional colleges (CHM, COM, CVM, LAW) with their own grief absence policies are excluded from the above and should follow their own policies.

Students who believe their rights under this policy have been violated should contact the University Ombudsperson.

THE CAMPUS

The Michigan State University campus in East Lansing occupies 5,239 contiguous acres and has long been recognized as one of the most beautiful in the nation. The developed campus comprises 2,100 acres, and the remaining 3,139 acres are devoted to experimental farms, outlying research facilities, and a 36-hole golf course. Combined, the developed campus and farms area also contain 27 natural areas which encompass more than 700 acres. The gently-rolling campus is graced by a park-like landscape, traversed by the scenic tree-lined Red Cedar River. Campus beauty is enhanced by a mature collection of trees, shrubs, and woody vines that serve teaching, research and outreach functions with over 36,000 plants accounted for in an interactive digital database. Planting of trees on the campus began shortly after its founding in 1855. A more formal collection of trees was initiated on campus in 1874 in what is known as the Campus Arboretum Collection. The rich campus open space complements and unifies the 565 permanent university buildings that provide over 24.2 million gross square feet of space to serve the institution’s land-grant mission.

The spacious campus arboretum is punctuated at intervals by focal points of plant interest. Notable among these are the W. J. Beal Botanical Garden, the Horticultural Demonstration Gardens, the 4-H Children’s Garden, the C.E. Lewis Landscape Arboretum, the West Circle Drive loop, and the Sanford, Red Cedar, Baker, Beal Pinetum, Bear Lake, and Toumey Natural Areas. The W.J. Beal Botanical Garden was established in 1873 to support teaching, research and community outreach across campus. Besides being one of the very first continuously operated campus botanical gardens in North America, it is the site where hybrid maize was first developed by Professor Beal, and is still the place where the longest running science experiment in history is ongoing today. The 2,500 plant taxa in the labeled beds are organized into systematic, and economic collections. The adjoining slopes have many more species that comprise regional ecological and landscape groupings. Besides providing accessioned plant materials annually for millions of dollars of grant supported research, the Beal Botanical Garden also participates in a robust International Seed Exchange and shares and develops plant biology information with hundreds of botanical gardens worldwide. The Horticultural Demonstration Gardens, which showcase beautiful displays of over 1,200 varieties of flowering plants, are used for instruction and demonstration and for testing the performance of plants in the climate of central Michigan. They include both All-American Trial and Euro-Select Trial Gardens for annual plants and an All-American Display Garden for roses. Natural areas on the campus are protected vestiges of our natural heritage and include Toumey Woodlot, an old-growth beech-maple forest designated by the U.S. Department of the Interior as a National Landmark. Management of the natural areas is held to a minimum necessary to assure that their manifold teaching, research,
recreational, and inspirational values will continue to serve generations of future students, staff, and faculty.

ALUMNI MEMORIAL CHAPEL

Nestled amidst trees and lawns that slope gently down to the Red Cedar River stands the picturesque Alumni Memorial Chapel. Thousands of Michigan State University students and alumni have selected the chapel for their wedding ceremonies since its dedication on June 7, 1952. Its simple elegance, timbered ceilings, stained glass windows and collegiate Gothic charm are among the reasons many travel from around the world to celebrate weddings, baptisms, and memorials at their alma mater. The chapel was built "in honor of those who served their country" and "in memory of those students and alumni who made the supreme sacrifice." More than 5,000 alumni and friends of the university raised the initial $200,000 to build the chapel. The Michigan State University Alumni Memorial Chapel seats approximately 190 people. Accommodating all faiths, each ceremony is treated with the same respect and reverence. This commitment to excellence has made countless weddings at the chapel unique and memorable. Through quality educational experiences, fraternities and sororities support the Guiding Principles of the institution, as well as provide an avenue whereby all students experience active learning through self-governance.

The 62 fraternities and sororities are governed by governing councils responsible for representing constituents to the greater campus and East Lansing communities, providing programs and services to chapters and their members, and creating and enforcing standards and policies throughout the Greek community. Through mutual interdependence, the governing councils assist all 62 member organizations in providing a quality Greek experience for their members. The governing councils include:

- Interfraternity Council (IFC), governing 31 internationally affiliated men’s Greek letter organizations.

UACOR provides activities and services to residents. They also represent students’ views to University Residence Education and Housing Services, and other institutional partners.

The Executive Board, along with Village Representatives, are elected by the general membership. Voting privileges are extended to the aforementioned. Residents are encouraged to participate in monthly Town Meetings and bringing their ideas, interests, and concerns to the attention of UACOR. A tax is assessed every semester. For further information contact UACOR at the University Apartments Residence Education office at 1-517-353-9499. The UACOR office is located in Room 138B, Spartan Village Community Center.

Residence Halls Association
Residence Halls Association (RHA) represents the highest level of undergraduate residence hall government and is the governing body for all undergraduate residence halls. Membership is composed of an elected representative from each hall on campus and from: Black Student Alliance, Cultural de las Razas Unidas, North American Indian Student Organization, Asian Pacific American Student Organization, Alliance of Queer and Ally Students, Women’s Council, Arab Cultural Society, and Council of Students with Disabilities and area based caucus groups. RHA is recognized as a legitimate part of the university decision-making process and its purposes include: developing communication between individual halls and the university community; sponsoring and coordinating all-university activities for students living in residence halls; formulating policy and regulations pertaining to residence halls students; and representing areas of interest and concern to such students. In addition, RHA also sponsors workshops, the Campus Center Cinemas, Movie Rental offices, Spartan Leadership Conference, RHA-TV (channels 11 and 12), RHA Karaoke, concerts, and special events. All residents of Michigan State University undergraduate residence halls are members of
RHA and may exercise their voting rights and opinions through the representatives of their respective halls. A tax is collected during registration for fall and spring semesters from each undergraduate and graduate student living in a residence hall to support the activities listed above. The fall and spring only tax also supports the functions of each hall government. Contact RHA at: rha@msu.edu.

Owen Graduate Association

Owen Graduate Association (OGA) represents the interests of Owen Graduate Hall residents and functions as the major governing body for that hall. OGA provides a program of information and services for Owen Graduate Hall residents and participates in the formulation of policies and regulations pertaining to residents of that hall. All residents of Owen Graduate Hall are members of OGA and pay a tax to support the activities of the OGA.

STUDENT PUBLICATIONS

Michigan State University's yearbook, The Red Cedar Log, is published by students under the auspices of the Associated Students of Michigan State University. The yearbook is free to MSU students and is supported through the ASMSU student tax. Other student publications include those maintained independently, or within colleges, departments, schools, living units, and student organizations. The State News, a daily newspaper distributed widely to students, faculty, and staff, is published by The State News, Inc. The corporation is separate and independent from the university; however, its staff is composed largely of Michigan State University students.

STUDENT RADIO

The Mission Statement of MSU Student Radio is Diversity in Programming, Professionalism in Presentation and Education. WDBM-FM, better known as IMPACT 89FM, is an FCC licensed non-commercial educational station that operates 24/7/365 and covers the mid-Michigan area around Lansing. It may also be heard via streaming audio and video at www.impact89fm.org. WFIX, the training station, streams online at www.thefix.org. A fee collected from all students each semester supports the stations.

Any student, regardless of major, may apply to work at the station either as a volunteer or paid Director. Positions range from disk jockey to producers, engineers and promotion people. The offices and studios are located in G-4 Holden Hall, 1-517-884-8900, and are accessible for persons with disabilities.

THE STUDENTS

Michigan State University’s enrollment totals over 50,000 students including the off-campus programs. Over 39,000 are undergraduates. The remainder are graduate and graduate-professional programs. Approximately 52 percent of the undergraduate and graduate students on the East Lansing campus were women.

STUDENT RIGHTS AND RESPONSIBILITIES

Student Rights and Responsibilities

On March 16, 1967, the Board of Trustees of Michigan State University approved a document entitled Academic Freedom for Students at Michigan State University. The report established guidelines to identify rights and duties of students in regard to conduct, academic pursuits, the keeping of records, and publications. It provided for structures and procedures for the formulation of guidelines governing student conduct, for the interpretation and amendment of the guidelines, for due process in the adjudication of student disciplinary cases, and for channeling to the faculty and administration student complaints and concerns in the academic area.

The original document has been amended several times, most recently in 2014 which also included a name change. The document is now entitled Student Rights and Responsibilities. The revised edition incorporating all amendments as approved by the Board of Trustees is included in Spartan Life. Visit http://splife.studentlife.msu.edu.

Graduate Student Rights and Responsibilities

On June 18, 1971, the Board of Trustees of Michigan State University approved a document entitled Graduate Student Rights and Responsibilities. The document established guidelines to identify rights and duties of graduate students in regard to such matters as academic programming, conduct, support, and the keeping of records. This document provided for structures and procedures for formulating regulations governing student conduct, for amending the document, for considering grievances, and for providing due process in the adjudication of cases involving graduate student rights and responsibilities.

The original document has been subsequently amended. The revised edition incorporating all amendments as approved by the Board of Trustees is included in Spartan Life. Visit http://splife.studentlife.msu.edu/graduate-student-rights-and-responsibilities.

Law Student Rights and Responsibilities

On June 6, 2014, the Board of Trustees of the Law College at Michigan State University approved a document entitled Law Student Rights and Responsibilities. The document established guidelines to identify rights and duties of law students in regard to such matters as academic programming, conduct, support, and the keeping of records. This document provided for structures and procedures for formulating regulations governing student conduct, for amending the document, for considering grievances, and for providing due process in the adjudication of cases involving law student rights and responsibilities. You may view the document: Spartan Life. Visit http://splife.studentlife.msu.edu/law-students-rights-and-responsibilities.

Medical Student Rights and Responsibilities

On June 6, 1986, the Board of Trustees of Michigan State University approved a document entitled Medical Student Rights and Responsibilities. The document established guidelines to identify rights and duties of medical students in regard to such matters as academic programming, conduct, support, and the keeping of re-
cords. This document provided for structures and procedures for formulating regulations governing student conduct, for amending the document, for considering grievances, and for providing due process in the adjudication of cases involving medical student rights and responsibilities.

This document as amended and as approved by the Board of Trustees is available from the offices of the Deans of the Colleges of Human Medicine, Osteopathic Medicine, and Veterinary Medicine; the Office of the Graduate School; the Office of the Provost; the Office of the Ombudsperson; and online at [http://splife.studentlife.msu.edu/medical-student-rights-and-responsibilities-mssr](http://splife.studentlife.msu.edu/medical-student-rights-and-responsibilities-mssr).

**POLICY ON RESEARCH WITH HUMAN SUBJECTS**

Graduate or undergraduate student programs may involve human subjects in research and/or clinical investigations. "Research" means a systematic investigation, including research development, testing and evaluation, designed to develop or contribute to generalizable knowledge. Masters' theses and Ph.D. dissertations are considered to present generalizable knowledge. "Human subject" means a living individual about whom an investigator conducting research obtains (1) data through intervention or interaction with the individual or (2) identifiable, private information. Federal regulations and/or university policies require review and approval of all proposed research and/or clinical investigations involving human subjects by an Institutional Review Board (IRB) prior to initiation. An official determination letter from the MSU IRB office must be obtained before involving human subjects in research and/or clinical investigations; this letter may be required by other University offices.

Information regarding procedures for IRB submission and review is available from the Human Research Protection Program Web site at [www.hrpp.msu.edu](http://www.hrpp.msu.edu), E-mail irb@msu.edu, or call 1-517-355-2180. Appointment or walk-in questions are welcome. Visit the Web site for hours and location.

**STUDENT ORGANIZATIONS**

Student organizations at Michigan State University provide an opportunity for students to participate in leadership experiences and to explore areas of specific interest.

Students are encouraged to consider the value of membership in an organized group. Each of the approximately 880 existing student organizations has its own activities and membership requirements. Students who are members of an honorary society may associate with the Michigan State University chapter of that society.

More detailed information regarding student organizations may be obtained from the Student Life Office, 101 Student Services Building or visit the Department of Student Life Web site to view a current list - [www.studentlife.msu.edu](http://www.studentlife.msu.edu).
