864 **Plant Biochemistry**

Spring. 3(3-0) Interdepartmental with Biochemistry and Molecular Biology. Administered by Department of Biochemistry and Molecular Biology. RB: BMB 401 or BMB 462. SA: BCH 864

Biochemistry unique to photosynthetic organisms. Photosynthetic and respiratory electron transport, nitrogen fixation, carbon dioxide fixation, lipid metabolism, carbon partitioning, cell walls, biosynthesis of plant hormones.

865 Plant Growth and Development

Fall. 3(3-0) RB: (PLB 415) SA: BOT 865 Physiology and biochemistry of growth and development as regulated by internal and external factors. Biosynthesis and action of plant hormones. Environmental factors: light and temperature.

891 **Current Topics in Ecology and Evolution**

Summer. 1 credit. Summer: Given only at W.K. Kellogg Biological Station. A student may earn a maximum of 8 credits in all enrollments for this course. Interdepartmental with Zoology; Crop and Soil Sciences. Administered by Department of Zoology.

Presentation and critical evaluation of theoretical and empirical developments by visiting scientists.

Population and Community Ecology 896

Fall. 4(4-0) Interdepartmental with Zoology.

Administered by Department of Zoology.

Population dynamics of animals and plants utilizing life tables and projection matrices. Species interaction. Life history theory. Structure and dynamics of communities. Succession.

897 **Ecosystem Ecology**

Spring. 4(4-0) Interdepartmental with Zoology; Fisheries and Wildlife. Administered by Department of Zoology.

Structure and function of natural ecosystems. Succession, food web analysis, energy flow, nutrient cycling, and effects of human activities on ecosystems. Global environmental change. Ecosystem management and restoration.

899 Master's Thesis Research

Fall, Spring, Summer. 1 to 12 credits. A student may earn a maximum of 24 credits in all enrollments for this course. R: Open only to graduate students. SA: BOT 899

Research in anatomy, bryology cell biology, ecology, genetics, molecular biology, morphology, mycology, paleobotany, pathology, physiology and systemat-

999 **Doctoral Dissertation Research**

Fall, Spring, Summer. 1 to 12 credits. A student may earn a maximum of 99 credits in all enrollments for this course. R: Open only to doctoral students. SA: BOT 999

Research in anatomy, bryology cell biology, ecology, genetics, molecular biology, morphology, mycology, paleobotany, pathology, physiology and systemat-

PLANT PATHOLOGY **PLP**

Department of Plant Pathology College of Agriculture and Natural Resources

Current Issues and Frontiers in Plant Pathology

Fall. 1(1-0)

Basic principles of plant disease and plant pathogens. Current topics and future opportunities in the discipline of plant pathology.

105 **Fundamentals of Applied Plant** Pathology

Spring. 2(2-2) R: Open only to students in the Institute of Agricultural Technology. SA: CSS 055 Not open to students with credit in CSS 055 or PLP 405

Diseases of major agronomic and horticultural plants. Disease management. Offered first ten weeks of the semester.

Pests, Society and Environment

Fall, Spring. 3(3-0) Interdepartmental with Entomology. Administered by Department of Entomology.

Nature of pests and their impact on society. Principles of integrated pest management in relation to environmental quality and sustainable development.

362 **Management of Turfgrass Pests**

Fall. 4(3-2) Interdepartmental with Crop and Soil Sciences; Entomology. Administered by Department of Crop and Soil Sciences. P:M: (CSS 232)

Chemical, biological, and cultural methods of managing weeds, diseases, and insect pests of turfgrass. Environmental considerations in pest

Biology of Fungi

Fall. 3(2-3) Interdepartmental with Plant Biology. Administered by Department of Plant Biology. P:M: (BS 110 or BS 111 or PLB 105 or LBS 145 or LBS 148H or LBS 149H) SA: BOT 402

Major groups of fungi: characteristics, habitats, and diversity. Significance of fungi in nature and their economic importance.

Plant Pathology

Spring. 3(2-3) P:M: (BS 110 and BS 111) or (PLB 105 and PLB 106) or (LBS 144 and LBS 145) or (LBS 148H and LBS 149H) and completion of Tier I writing requirement. SA: BOT 405 Not open to students with credit in **BOT 407**

Plant diseases and the organisms that cause them. Principles of disease management including application of chemicals, plant breeding, biological control, and genetic engineering.

Diseases and Insects of Forest and **Shade Trees**

Spring. 4(3-3) Interdepartmental with Entomology; Plant Biology. P:M: (PLB 105 or BS 110 or LBS 144 or LBS 148H) and (PLB 218 or FOR 204 or HRT 211) and completion of Tier I writing requirement. SA: BOT

Diseases, insects, and environmental problems affecting trees in forests, parks, suburbs, and nurseries. Methods of control.

490 Independent Study

Fall, Spring, Summer. 1 to 3 credits. A student may earn a maximum of 6 credits in all enrollments for this course.

Independent study of plant pathology on a laboratory, field or library research program of special interest to the student.

Selected Topics in Plant Pathology Fall, Spring, Summer. 1 to 3 credits. A student may earn a maximum of 6 credits in all enrollments for this course. P:M: (PLP 405 or PLP 407)

Selected topics in plant pathology of current interest and importance.

492 Seminar

Spring. 2(2-0) P:M: (PLP 498) and completion of Tier I writing requirement. RB: (PLP

Capstone course. Experience in scientific writing, oral presentations, professional preparation, and current developments in plant pathology.

493 **Professional Internship in Plant** Pathology

Fall, Spring, Summer. 3 credits. A student may earn a maximum of 6 credits in all enrollments for this course. R: Open only to juniors or seniors in the Plant Pathology major. Approval of department, application required. A student may earn a maximum of 6 credits for any or all of these courses: ABM 493, AEE 493, ANR 493, ANS 493, CSS 493, EEP 493, FIM 493, FSC 493, FW 493, HRT 493, PKG 493, PLP 493, PRR 493, and RD 493.

Supervised professional experiences in agencies and businesses related to plant pathology.

498 **Undergraduate Research**

Fall, Spring, Summer. 1 to 4 credits. A student may earn a maximum of 12 credits in all enrollments for this course. P:M: Completion of Tier I writing requirement. R: Approval of department

Faculty supervised laboratory. Field research in plant pathology.

810 **Current Concepts in Plant Pathology**

Spring. 3(3-0) RB: (PLP 405 or PLB 414 or PLB 415) SA: BOT 810

Recent findings in mycology, plant virology, bacteriology, nematology, disease physiology and epidemiology.

812 **Epidemiology of Plant Diseases**

Spring of odd years. 3(3-0) RB: (PLP 810) SA: BOT 812

Populations of plant pathogens within populations of plant hosts as affected by the environment and

820 Plant Reproductive Biology and Polyploidy

Spring. 1 credit. Interdepartmental with Horticulture; Crop and Soil Sciences; Forestry; Plant Biology. Administered by Department of Horticulture. RB: Introductory

Genetics and Plant Biology
Genetic processes underlying variations in plant reproductive biology and polyploidy and the utilization of these characteristics in plant breeding

Plant Pathology—PLP

821 **Crop Evolution**

Spring of odd years. 1 credit. Interdepartmental with Horticulture; Crop and Soil Sciences; Forestry; Plant Biology. Administered by Department of Horticulture. RB: Introductory Genetics and Plant Biology

Cultural and biological aspects of the evolution of domestic plants.

822 **Historical Geography of Crop Plants**

Spring of odd years. 1 credit. Interdepartmental with Horticulture; Crop and Soil Sciences; Forestry; Plant Biology. Administered by Department of Horticulture. RB: Introductory Genetics and Plant Biology

Development and spread of the major crop species.

847 **Advanced Mycology**

Spring of even years. 4(2-4) Interdepartmental with Plant Biology. RB: (BOT 402) SA: BOT 847

Systematics, identification, physiology, genetics, and molecular biology of plant pathogenic fungi.

Nematode Management in Crop Systems

Summer of even years. 3(2-3) Interdepartmental with Entomology. Administered by Department of Entomology. RB: (PLP 405) SA: BOT 870

Biology, host parasite relationships and management by farming and cropping systems of selected nematode diseases of economic plants.

Plant Virology 880

Fall of odd years. 4(2-4) RB: (BMB 462 and BOT 810) SA: BOT 880

Biology and molecular aspects of viruses causing plant disease.

881 **Molecular and Biochemical Plant** Pathology

Spring of odd years. 3(2-2) RB: (BMB 462 and ZOL 341 and PLP 810) and (BOT 414 or BOT 415) SA: BOT 881

Biochemical and molecular bases of host-pathogen interactions. Mechanisms of pathogenicity and the nature of disease resistance.

884 **Prokaryotic Diseases of Plants**

Fall of even years. 4(2-4) RB: (BOT 810) SA: BOT 884

Prokaryotic genera associated with plant diseases. Identification, physiology, and genetics. Laboratory techniques.

Plant Diseases in the Field 885

Summer of odd years. 2(1-3) RB: (PLP 810) R: Open only to graduate students. SA: **BOT 885**

Diagnosis of plant diseases and disorders in a field setting. Field trips and independent study required.

890 Independent Study

Fall, Spring, Summer. 1 to 4 credits. A student may earn a maximum of 6 credits in all enrollments for this course. R: Open only to graduate students.

Individual study in laboratory, field or library research in plant pathology

893 Selected Topics

Fall, Spring. 1 to 4 credits. A student may earn a maximum of 6 credits in all enrollments for this course.

Current topics in plant pathology.

894 Seminar in Plant Pathology

Fall, Spring. 1(1-0) A student may earn a maximum of 6 credits in all enrollments for

Review, organization, analysis and oral presentation of research.

899 Master's Thesis Research

Fall, Spring, Summer. 1 to 12 credits. A student may earn a maximum of 99 credits in all enrollments for this course.

Master's thesis research.

Doctoral Dissertation Research

Fall, Spring, Summer. 1 to 24 credits. A student may earn a maximum of 99 credits in all enrollments for this course.

Doctoral dissertation research.

POLITICAL SCIENCE PLS

Department of Political Science College of Social Science

Introduction to American National 100 Government Fall, Spring, Summer. 3(3-0)

The policymaking process in national government, with emphasis on political participation, the presidency, Congress, Supreme Court, bureaucracy, and civil rights and civil liberties.

Government and Politics of the World

Fall, Spring, Summer. 3(3-0)

Comparative analysis of political systems in first, second, and third-world countries. Alternative methods for comparative cross-cultural analyses of politi-

Introduction to International Relations

Fall, Spring, Summer. 3(3-0) Not open to students with credit in MC 220 or MC 221.

Dynamics of conflict and cooperation. Processes of foreign policy decision making. Major international economic issues. Basic future trends. Primary analytical approaches for studying world politics.

Introduction to Political Philosophy

Fall, Spring, Summer. 3(3-0)

Basic questions of political philosophy as considered from ancient to modern times. Primary focus on the origins, defense, and radical critiques of modern liberal democracy.

Introduction to Political Science

Fall, Spring, Summer. 4(4-0)

The science of politics. Theory construction, model building, empirical testing, and inductive inference. Examples from American, international and comparative politics

Introduction to Methods of Political **Analysis**

Fall, Spring, Summer. 4(4-0) P:M: (PLS 200 or MC 201)

Philosophy of social science. Principles of research design, measurement, hypothesis testing, measures of association, cross tabulations, and regression

301 **American State Government**

Spring. 3(3-0)

Structure and processes of American state government. Interstate differences. Constitutions, elections, political parties, interest groups, and intergovernmental relations. Policy focus on education, welfare, and criminal justice.

Urban Politics 302

Fall. 3(3-0)

Structure and processes of American urban politics. Relationship of cities to U.S. federal system. Interstate variations. Policy focus on public education, crime, social welfare, and economic development.

304 **Minority Politics**

Fall. 3(3-0)

Minority groups and the political process in the United States. Civil rights movements, political organizations, legal decisions, political participation, and legislative politics.

Public Bureaucracy in the Policy Process Fall, Spring. 3(3-0)

Role of public bureaucracy in the U.S. Theories of administrative behavior and the impact of hierarchy on policymaking. Relations with the president, Congress, interest groups, and the public. Administrative functions, responsiveness, and ethics.

313

Public Policy Analysis Fall, Spring, Summer. 3(3-0) Not open to students with credit in MC 444.

Political and economic concepts for evaluating the consequences of government decision making. Issues of problem identification, policy adoption, and implementation affecting program evaluation.

The American Judicial Process

Fall, Spring. 3(3-0) R: Not open to freshmen or sophomores.

Analysis of the structure and functions of judicial systems. Organization, administration, and politics of judicial bureaucracies. Roles of judges, juries, counsel, litigants, and interest groups in the adjudication process.

321 American Constitutional Law

Fall, Spring. 3(3-0) R: Not open to freshmen or sophomores.

U.S. Supreme Court policy making and its effect on issues of current importance, including First Amendment freedoms, due process, race relations, sex discrimination, and privacy.

Comparative Legal Systems

Spring, Summer. 3(3-0)

Cross-national study of common law and civil law systems. Judicial review and selection of judges. Models of judicial decision-making. High court-low court relations. Role of courts in society.

American Legislative Process Spring. 3(3-0)

The design of Congress. Rules, structures, and procedures affecting policy making. Impact of regular elections on legislative behavior.

325 **American Executive Process**

Fall. 3(3-0) P:M: (PLS 100)

Role of the president in the U.S. political system. Constitutional questions, presidential selection, presidential power, interbranch relations, and presidential policy making.
