

# ENVIRONMENTAL ENGINEERING

ENE

## Department of Civil and Environmental Engineering College of Engineering

**427 Environmental Toxicology and Society**  
Spring of odd years. 3(3-0) Interdepartmental with Animal Science and Sociology. Administered by Animal Science. RB: ISB 200 or ISB 202 or ISB 204 or ISB 206H or BMB 200 or BS 111 or BS 110

Impact of environmental chemicals on health and modern society. Cellular and organ functions and their interface with the environment. Limitations of scientific investigation and environmental regulations.

**800 Environmental Engineering Seminar**  
Fall, Spring. 1(1-0) R: Open only to Environmental Engineering majors.  
Current research in environmental engineering.

**801 Dynamics of Environmental Systems**  
Spring. 3(3-0)  
Principles of mass balance, reaction kinetics, mass transfer, reactor theory in environmental engineering.

**802 Physicochemical Processes in Environmental Engineering**  
Fall. 3(3-0) RB: ENE 801  
Physical and chemical principles of air and water pollution control and environmental contaminants in water, air and soils.

**804 Biological Processes in Environmental Engineering**  
Fall. 3(3-0) RB: ENE 801 or concurrently  
Engineering of microbial processes used in wastewater treatment, in-situ bioreclamation, and solid waste stabilization.

**806 Laboratory Feasibility Studies for Environmental Remediation**  
Spring. 3(2-4) RB: ENE 802 and ENE 804  
R: Open only to graduate students in the Environmental Engineering major or Environmental Engineering-Environmental Toxicology major. Not open to students with credit in ENE 803 or ENE 805.  
Analysis and characterization of contaminants in soil or water. Conceptual and preliminary design of treatment systems. Use of treatability studies to evaluate treatment options. Oral presentations and preparation of consulting reports with design recommendations.

**811 Membrane Processes**  
Spring of odd years. 3(3-0) RB: (CE 321 or concurrently) and Calculus through differential equations, Physical chemistry  
Fundamental principles and applications of membrane processes in environmental engineering, emphasizing solid-liquid separations and pressure-driven membrane systems.

**827 Integrated Risk Assessment of Environmental Hazards**  
Spring of odd years. 3(3-0) Interdepartmental with Animal Science. Administered by Animal Science. R: Open only to graduate students in the College of Agriculture and Natural Resources or College of Engineering or College of Human Medicine or College of Natural Science or College of Osteopathic Medicine or College of Veterinary Medicine.

Alternative approaches to assessing environmental and health risk. Analyzing, interpreting, and using scientific data from ecology, agriculture, environmental chemodynamics, biology, geological sciences, and toxicology in the risk assessment process.

**880 Independent Study in Environmental Engineering**  
Fall, Spring, Summer. 1 to 6 credits. A student may earn a maximum of 6 credits in all enrollments for this course. R: Open only to Environmental Engineering majors.  
Solution of environmental engineering problems not related to student's thesis.

**890 Selected Topics in Environmental Engineering**  
Fall, Spring, Summer. 3(3-0) A student may earn a maximum of 9 credits in all enrollments for this course. R: Open only to Environmental Engineering majors.  
Selected topics in new or developing areas of environmental engineering.

**892 Master's Research Project**  
Fall, Spring, Summer. 1 to 5 credits. A student may earn a maximum of 5 credits in all enrollments for this course. R: Open only to master's students in the Environmental Engineering major. Approval of department.  
Master's degree Plan B individual student research project. Original research, research replication, or survey and reporting on a research topic.

**899 Master's Thesis Research**  
Fall, Spring, Summer. 1 to 8 credits. A student may earn a maximum of 24 credits in all enrollments for this course.  
Master's thesis research.

**999 Doctoral Dissertation Research**  
Fall, Spring, Summer. 1 to 24 credits. A student may earn a maximum of 72 credits in all enrollments for this course.  
Doctoral dissertation research.
