## **PATHOBIOLOGY** AND DIAGNOSTIC INVESTIGATION

#### **Veterinary Clinical Pathology** 554 PDI

Fall, Spring. 3(2-2) RB: Completion of Year 2 of the graduate-professional program in the College of Veterinary Medicine. R: Open to graduate-professional students in the Col-

Collection and assessment of body fluids and tissue. Interpretation of test results. Pathophysiological basis for test abnormalities. Basic technical laboratory competencies.

### **Department of Pathobiology** and Diagnostic Investigation **College of Veterinary Medicine**

#### 514 **Veterinary Neurosciences**

Fall. 2(2-0) R: Open to graduate-professional students in the College of Veterinary Medicine. SA: PDI 515, PDI 517

Introduction to the sensory, motor, and the special senses systems as they relate to domestic animals.

### 518 Comparative Veterinary Gross Anatomy I Fall. 4(2-6) R: Open to graduate-professional students in the College of Vete-

rinary Medicine.

Introduction to canine anatomy through lectures and dissection.

### 519 **Comparative Veterinary Gross Anatomy**

Spring. 4(2-6) R: Open to graduate-professional students in the College of Veterinary Medicine.

Introduction to comparative anatomy of all domestic animals through lectures and dissection. Clinically relevant anatomy.

### 520 **Veterinary Tissue Structure and Function** 4(3-3) R: Open to graduateprofessional students in the College of Veterinary Medicine.

Microscopic anatomy and cellular physiology of vertebrate tissues. Introduction to the use of the microscope.

#### 521 **Veterinary Organ Microanatomy**

Spring. 2(1-3) R: Open to graduate-professional students in the College of Veterinary Medicine.

Microanatomy of organ systems and relationship of structure to function.

#### 551 **General Pathology**

Fall. 2(1-2) RB: Completion of year 1 of the graduate professional program in the College of Veterinary Medicine. R: Open to graduate-professional students in the College of Veterinary Medicine. SA: PTH 551

Host responses to injury, including cell degeneration, necrosis, disturbances of growth and development, neoplasia, circulatory disturbances, and inflammation.

#### Systemic Pathology 553

Spring. 4(3-2) RB: Completion of Year 1 in the graduate professional program in the College of Veterinary Medicine. R: Open to graduate-professional students in the College of Veterinary Medicine. SA: PTH 553

Anatomic pathology of digestive, urinary, respiratory, integumentary, cardiovascular, nervous, reproductive, musculoskeletal, endocrine, and lymphatic systems

### Introduction to Veterinary Cytology

lege of Veterinary Medicine.

Fall. 1(0-2) RB: Completion of year 2 of the graduate professional program in the College of Veterinary Medicine. R: Open to graduate-professional students in the College of Veterinary Medicine.

Principles of sample collection, slide preparation, fluid analysis and interpretation using clinical case material.

#### 562 Introduction to Emerging and Foreign **Animal Diseases**

Spring. 1(1-0) RB: Completion of year 1 of the graduate professional program in the College of Veterinary Medicine. R: Open to graduate-professional students in the College of Veterinary Medicine.

Emerging and exotic animal diseases, their recognition, diagnosis, and proper reporting.

### 563 Topographic and Applied Anatomy of

Live Cats and Dogs
Spring. 1(0-2) RB: Completion of year 1 of the graduate professional program in CVM.
R: Open to graduate-professional students in the College of Veterinary Medicine.

Identification of structures and landmarks of clinical significance in live cats and dogs in relation to the structures imaged using endoscopy, ultrasonogra-phy, radiology, MRI, and CT scans.

### Selective Topics in Pathobiology and Diagnostic Investigation

Fall, Spring. 1(1-0) RB: Completion of year 1 of the graduate professional program in the College of Veterinary Medicine R: Open to graduate-professional students in the College of Veterinary Medicine.

Important field of study in Pathobiology and Diagnostic Investigation.

### **Veterinary Gross Anatomy Dissection**

Fall, Spring, Summer. 1 to 3 credits. A student may earn a maximum of 6 credits in all enrollments for this course. RB: Completion of semester 5 of the graduate-professional program in the College of Veterinary Medicine. R: Open to graduate-professional students in the College of Veterinary Medicine. SA: ANTV 610

Dissection and prosection of selected regions of domestic animals.

### Research Problems in Veterinary Anatomy

Fall, Spring, Summer. 1 to 3 credits. A student may earn a maximum of 6 credits in all enrollments for this course. RB: Completion of semester 5 of the graduate-professional program in the College of Veterinary Medicine R: Open to graduate-professional students in the College of Veterinary Medicine. SA: ANTV 611

Veterinary gross anatomy, cell biology, histology, or neurobiology.

#### 630 **Diagnostic Pathology Clerkship**

Fall, Spring. 3 credits. RB: Completion of semester 5 of the graduate-professional program in the College of Veterinary Medicine. R: Open to graduate-professional students in the College of Veterinary Medicine. SA: PTH 630

Necropsy and clinical pathology techniques and interpretation of clinical findings, post mortem findings, and diagnostic laboratory results.

### **Necropsy Clerkship**

Fall, Spring. 3 credits. P: PDI 630 RB: Completion of semester 5 of the graduate professional program in the College of Veterinary Medicine. R: Open to graduate-professional students in the College of Veterinary Medicine. SA: PTH 631

Supervised necropsy. Interpretation and presentation of findings.

#### 632 **Problems in Veterinary Pathology**

Fall, Spring, Summer. 1 to 3 credits. A student may earn a maximum of 6 credits in all enrollments for this course. RB: Completion of Semester 5 of the graduate professional program in the College of Veterinary Medicine. R: Open to graduate-professional students in the College of Veterinary Medicine. SA: PTH 632

Supervised projects involving gross pathology, histopathology, clinical pathology, or molecular pathology.

#### 634 **Endocrinology Clerkship**

Spring. 3 credits. RB: Completion of semester 5 of the graduate-professional program in the College of Veterinary Medicine. R: Open to graduate-professional students in the College of Veterinary Medicine. SA: PTH 634

Principles of endocrinology and diagnosis of endocrinology disorders. Case review and interpretation.

#### 635 Special Problems in Histopathology and Cytology Clerkship

Spring. 3 credits. P: PDI 630 RB: Completion of Semester 5 of the professional program in the College of Veterinary Medicine. R: Open to graduate-professional students in the College of Veterinary Medicine. SA: PTH 635

Study of the histopathology and clinical cytology of various diseases of veterinary importance.

# Aquatic Animal Medicine Clerkship Fall, Spring. 3 credits. RB: Completion of

semester 5 of the graduate-professional program in the College of Veterinary Medicine. R: Open to graduate-professional students in the College of Veterinary Medicine. SA: PTH 636

Clinical, laboratory, and ecological principles of disease of aquatic organisms with special emphasis on impacts and management. Critical analysis and review of selected case studies and disease control

#### Molecular and Developmental 804 Neurobiology

Fall. 3(3-0) Interdepartmental with Neuroscience and Pharmacology and Toxicology and Psychology and Zoology. Administered by Neuroscience. RB: Bachelor's degree in a Biological Science or Psychology. R: Open to graduate students in Neuroscience major.

Nervous system specific gene transcription and translation. Maturation, degeneration, plasticity, and repair in the nervous system.

### Pathobiology and Diagnosis Investigation—PDI

#### 816 Integrative Toxicology: Mechanisms, Pathology and Regulation

Fall of odd years. 3(3-0) Interdepartmental with Animal Science and Biochemistry and Molecular Biology and Pharmacology and Toxicology. Administered by Pharmacology and Toxicology. P: PHM 819

Biochemical, molecular, and physiological mechanisms of toxicology. Functional and pathological responses of major organ systems to chemical insult. Mechanisms of mutagenesis, carcinogenesis, and reproductive toxicology. Concepts in risk and safety assessment.

#### **Advanced Human Hematology** 820

Fall of odd years. 2(2-0) Interdepartmental with Biomedical Laboratory Diagnostics. Administered by Biomedical Laboratory Diagnostics. RB: BLD 424

Pathogenesis, mechanisms, and morphological pictures. Laboratory tests and interpretation of re-

#### 822 **Aquatic Animal Medicine**

Fall. 3(2-2) Interdepartmental with Fisheries and Wildlife and Veterinary Medicine. Administered by Fisheries and Wildlife. RB: (FW 423) or prior course work in animal ecology, microbiology, parasitology or pathology

Health management techniques and pathobiological processes relating to the etiology, diagnosis, and control of diseases affecting aquatic animal populations and communities.

#### 830 **Concepts in Molecular Biology**

Fall, Spring. 2(2-0) Interdepartmental with Biomedical Laboratory Diagnostics. Administered by Biomedical Laboratory Diagnostics. RB: One course in biochemistry or concurrently. SA: MT 830

Techniques and theories of molecular biology, nucleic acid synthesis and isolation, enzymatic digestion and modification, electrophoresis, hybridization, amplification, library construction, and clon-

#### 851 **Advanced General Pathology**

Fall of even years. 3(3-0) R: Approval of department. SA: PTH 851

Fundamental concepts of cell injury, inflammation, and oncogenesis. Mechanisms of disease.

### **Advanced Systemic Pathology**

Spring of odd years. 3(0-6) R: Approval of department. SA: PTH 853

Pathological aspects of the nervous, endocrine, cardiovascular, respiratory, urinary, genital, musculoskeletal, integumentary, and special sense sys-

#### 854 **Advanced Clinical Pathology**

Fall of odd years. 3(2-2) R: Approval of department. SA: PTH 854

Hematology, including anemias, leukocyte responses and hemostasis. Cytology including inflammation, infection, and neoplasia. Evaluation of clinical chemistry data.

#### 857 **Correlative Diagnostic Pathology**

Fall, Spring, Summer. 3(0-9) R: Approval of department.

Diagnosis of animal diseases by necropsy and ancillary tests. Correlation of diagnostic test results with history, laboratory data, and morphologic find-

#### 858 **Pathology of Avian Diseases**

Spring of even years. 2(2-0) R: Approval of department. SA: PTH 858

Disease and pathology affecting domestic poultry, pet birds, and wild birds.

### Avian Histopathology Laboratory

Spring of even years. 1(0-2) R: Approval of department. SA: PTH 859

Recognition and description of microscopic lesions of avian diseases.

#### **Clinical Laboratory Diagnosis of** 860 Infectious Diseases

Fall of odd years. 2(2-0) Interdepartmental with Biomedical Laboratory Diagnostics. Administered by Biomedical Laboratory Diagnostics. RB: MMG 451 and MMG 464 and BLD 434 SA: MT 860

Laboratory techniques for diagnosing infectious diseases in humans. Emphasis on differential diagnosis and correlation of microbiological results with serology, hematology, and clinical chemistry.

### **Laboratory Animal Pathology**

Summer of odd years. 2(1-2) RB: Background in histopathology, veterinary medicine, and systemic pathology R: Approval of department.

Diseases and pathology of laboratory animal species including mice, rats, ferrets, rabbits, primates, and fish, including current use of laboratory animals for toxicological pathology in industry.

**Problems in Veterinary Pathology**Fall, Spring, Summer. 1 to 12 credits. A student may earn a maximum of 12 credits in all enrollments for this course. R: Approval of department. SA: PTH 890

Faculty supervised work on an experimental, theoretical, or applied problem in veterinary pathology.

### **Problems in Pathobiology**

Fall, Spring, Summer. 1 to 12 credits. A student may earn a maximum of 12 credits in all enrollments for this course. R: Approval of department. SA: PTH 891

Faculty supervised work on an experimental, theoretical, or applied problem in pathobiology and diagnostic investigation.

### Pathology Seminar

Fall, Spring. 1(1-0) A student may earn a maximum of 3 credits in all enrollments for this course. R: Approval of department. SA: PTH 892

Presentation and discussion of current topics in pathology by departmental graduate students, facultv. or outside speakers.

### **Pathology Case Discussion Seminar**

Fall, Spring. 1(1-0) A student may earn a maximum of 6 credits in all enrollments for this course. R: Open to graduate students or lifelong graduate students in the Department of Pathobiology and Diagnostic Investigation. Approval of department. SA: PTH 893

Utilization of a group of theme-based veterinary cases to train pathology residents and graduate students in diagnostic pathology.

## Diagnostic Histopathology of Neoplastic Diseases of Domestic Animals

Summer. 2(1-2) R: Approval of department. Histologic diagnosis of neoplastic diseases of domestic animals, including prognostic criteria, grading systems, and ancillary techniques to aid in diagnosis and prognosis.

#### 899 Master's Thesis Research

Fall, Spring, Summer. 1 to 10 credits. A student may earn a maximum of 10 credits in all enrollments for this course. R: Open to masters students in the Department of Pathobiology and Diagnostic Investigation. Approval of department. SA: PTH 899

Master's thesis research.

#### 901 Investigating the Lung

Fall of even years. 2(2-0) Interdepartmental with Large Animal Clinical Sciences and Physiology. Administered by Large Animal Clinical Sciences. R: Open to graduate students

Integrative biology of the lung. Structure and function. Molecular, cellular, and organ responses to injury.

#### 999 **Doctoral Dissertation Research**

Fall, Spring, Summer. 1 to 24 credits. A student may earn a maximum of 42 credits in all enrollments for this course. R: Open to doctoral students in the Department of Pathobiology and Diagnostic Investigation.

Approval of department. SA: PTH 999

Doctoral dissertation research.
