PEDIATRICS AND HUMAN **DEVELOPMENT PHD**

Department of Pediatrics and Human Development College of Human Medicine

591 Special Problems in Human Development

Fall, Spring, Summer. 1 to 6 credits. A student may earn a maximum of 12 credits in all enrollments for this course. R: Open only to graduate-professional students in the colleges of Human and Osteopathic Medicine.

Work under the direction of a faculty member on an experimental, theoretical, or applied problem.

Pediatric Specialty Clerkship 600

Fall, Spring, Summer. 6 to 24 credits. A student may earn a maximum of 24 credits in all enrollments for this course. RB: Completion of preclinical CHM curriculum. R: Open only to graduate-pro-fessional students in College of Human Medicine

Multidisciplinary approach to children and their families in a health care setting. Integrated biological, behavioral, and clinical sciences in assessing and planning children's health care needs.

601 **Human Development and Pediatric** Sub-specialties

Fall, Spring, Summer. 3 to 6 credits. A student may earn a maximum of 24 credits in all enrollments for this course. RB: PHD 600 or HM 556 R: Open to graduate-professional students in the College of Human Medicine.

Experience in clinical, behavioral, and basic sciences related to pediatrics and human development.

Ambulatory Pediatric Clerkship 602

Fall, Spring, Summer. 3 to 6 credits. A student may earn a maximum of 24 credits in all enrollments for this course. RB: PHD 600 or HM 556 R: Open to graduate-professional students in the College of Human Medicine.

Clinical experience in outpatient and community setting involving ongoing child health care.

603 **Pediatric Infectious Diseases**

Fall, Spring, Summer. 3 to 6 credits. A student may earn a maximum of 24 credits in all enrollments for this course. RB: PHD 600 or HM 556 R: Open to graduate-professional students in the College of Human Medicine.

Office, clinic, and inpatient experiences in evaluating and managing pediatric patients with infectious diseases. Interpretation and use of clinical laboratory data.

604 Neonatology

Fall, Spring, Summer. 6 to 12 credits. A student may earn a maximum of 12 credits in all enrollments for this course. RB: PHD 600 R: Open only to graduate-professional students in College of Human Medicine.

Clinical experiences: modern neonatal techniques and care patterns for neonates including follow up.

605

Pediatric Cardiology Clerkship Fall, Spring, Summer. 3 to 6 credits. A student may earn a maximum of 24 credits in all enrollments for this course. RB: PHD 600 or HM 556 R: Open to graduate-professional students in the College of Human Medicine.

Office, clinic, and hospital experience in diagnostic and therapeutic pediatric cardiology including special diagnostic procedures.

606 Pediatric Endocrinology and Metabolism Clerkship Fall, Spring, Summer. 3 to 6 credits. A

student may earn a maximum of 24 credits in all enrollments for this course. RB: PHD 600 or HM 556 R: Open to graduate-professional students in the College of Human Medicine.

Clinic and hospital experience in evaluating pediatric patients with endocrine and metabolic disorders.

Pediatric Hematology and Oncology 607 Clerkship

Fall, Spring, Summer. 3 to 6 credits. A student may earn a maximum of 24 credits in all enrollments for this course. RB: PHD 600 or HM 556 R: Open to graduate-professional students in the College of Human Medicine.

Clinical experience in evaluating and managing pediatric patients with common hematologic and oncologic disorders.

Pediatric Pulmonary Disease 608 Clerkship

Fall, Spring, Summer. 3 to 6 credits. A student may earn a maximum of 24 credits in all enrollments for this course. RB: PHD 600 or HM 556 R: Open to graduate-professional students in the College of Human Medicine.
Inpatient and outpatient clinical experiences in

evaluating and managing pediatric patients with pulmonary disease. Diagnostic procedures, pathobiology of pulmonary system, current re-

609 **Pediatric Genetics Clerkship**

Fall, Spring, Summer. 3 to 6 credits. A student may earn a maximum of 24 credits in all enrollments for this course. RB: PHD 600 or HM 556 R: Open to graduate-professional students in the College of Human Medicine.

Prenatal and developmental history taking. Identification of genetically determine conditions and major and minor anomalies. Use of genetic databases. Family counseling. Selection and interpretation of genetic tests.

Pediatric Allergy-Immunology 610 Clerkship

Fall, Spring, Summer. 3 to 6 credits. A student may earn a maximum of 24 credits in all enrollments for this course. RB: HM 556 or PHD 600 R: Open to graduate-professional students in the College of Human Medicine.

Pathophysiology and evaluation of various atopic and immunologic disorders in pediatric patients.

Pediatric Critical Care Medicine 611 Clerkship

Fall, Spring, Summer. 3 to 6 credits. A student may earn a maximum of 24 credits in all enrollments for this course. RB: PHD 600 or HM 556 R: Open to graduate-professional students in the College of Human Medicine.

Clinical experience in pediatric critical care medicine including respiratory, acid/base, infectious disease etiologies

612 Pediatric Gastroenterology Clerkship

Fall, Spring, Summer. 3 to 6 credits. A student may earn a maximum of 24 credits in all enrollments for this course. RB: PHD 600 or HM 556 R: Open to graduate-professional students in the College of Human Medicine.

Clinical experience in the outpatient and inpatient evaluation and management of pediatric gastrointestinal disease.

Pediatric Emergency Medicine 613 Clerkship

Fall, Spring, Summer. 3 to 6 credits. A student may earn a maximum of 24 credits in all enrollments for this course. RB: PHD 600 or HM 556 R: Open to graduate-professional students in the College of Human Medicine.

Assessment and management of pediatric patients in the emergency care setting.

Pediatric Nephrology Clerkship 614

Fall, Spring, Summer. 3 to 6 credits. A student may earn a maximum of 24 credits in all enrollments for this course. RB: PHD 600 or HM 556 R: Open to graduate-professional students in the College of Human Medicine.

Clinical experience in the outpatient and inpatient settings in assessment and management of children with renal disease.

615 Pediatric Neurology Clerkship

Fall, Spring, Summer. 3 to 6 credits. A student may earn a maximum of 24 credits in all enrollments for this course. RB: PHD 600 or HM 556 R: Open to graduate-professional students in the College of Human Medicine.

Clinical care of children with neurological disease in inpatient and outpatient settings.

616 Pediatric Physical Medicine and Rehabilitation Clerkship

Fall, Spring, Summer. 3 to 6 credits. A student may earn a maximum of 24 credits in all enrollments for this course. RB: PHD 600 or HM 556 R: Open to graduate-professional students in the College of Human Medicine.

Clinical experience working with children with acute and chronic disabilities

617 Pediatric Adolescent Medicine Clerkship

Fall, Spring, Summer. 3 to 6 credits. A student may earn a maximum of 24 credits in all enrollments for this course. RB: PHD 600 or HM 556 R: Open to graduate-professional students in the College of Human Medicine.

Clinical experience and psychosocial dimensions of adolescent medical care in inpatient or outpatient settings.

618 Pediatrics Sub-Internship

Fall, Spring, Summer. 3 to 6 credits. A student may earn a maximum of 24 credits in all enrollments for this course. RB: PHD 600 or HM 556 R: Open to graduate-professional students in the College of Human Medicine.

Clinical experience in which students take primary responsibility for managing the care of pediatric patients under the supervision of senior residents and/or attending physicians.

619 Pediatric Hospital Medicine Clerkship

Fall, Spring, Summer. 3 to 6 credits. A student may earn a maximum of 24 credits in all enrollments for this course. RB: PHD 600 or HM 556 R: Open to graduate-professional students in the College of Human Medicine.

Clinical experience in pediatric medicine in the inpatient setting. Common and uncommon conditions.

620 Child Abuse Pediatric Clerkship

Fall, Spring, Summer. 3 to 6 credits. A student may earn a maximum of 24 credits in all enrollments for this course. RB: PHD 600 or HM 556 R: Open to graduate-professional students in the College of Human Medicine

Clinical assessment and care of children at risk for violence, abuse or neglect in outpatient or inpatient settings.

621 Pediatric Rheumatology Clerkship

Fall, Spring, Summer. 3 to 6 credits. A student may earn a maximum of 24 credits in all enrollments for this course. RB: HM 556 or PHD 600 R: Open to graduate-professional students in the College of Human Medicine.

Pathophysiology and evaluation of pediatric rheumatology patients. Multidisciplinary care of children with chronic rheumatologic diseases.

633 Extended Clinical Experience

Fall, Spring, Summer. 6(6-0) P: PHD 600 Interviewing skills, history, physical exam, problem solving and therapy in community hospitals and ambulatory sites.

641 Pediatric Clerkship in the Late Clinical Experience

Fall, Spring, Summer. 6 credits. P: HM 556 R: Open to graduate-professional students in the College of Human Medicine.

Clinical experience in which students take primary responsibility for managing the care of pediatric patients under the supervision of senior residents and/or attending physicians.

643 Pediatric Critical Care

Fall, Spring, Summer. 6 credits. P: PHD 641 R: Open to graduate-professional students in the College of Human Medicine.

Hospital-based clinical experience in evaluating and managing acutely ill pediatric patients.

644 Pediatric Clerkship in the Late Clinical Experience Remediation

Fall, Spring, Summer. 3(3-0) P: PHD 641 R: Open to graduate-professional students in the College of Human Medicine.

Interviewing skills, history, physical exam, problem solving and therapy based in community hospitals and/or ambulatory sites.

645 Pediatric Critical Care Remediation

Fall, Spring, Summer. 3(3-0) P: HM 556 R: Open to graduate-professional students in the College of Human Medicine.

Hospital-based clinical experience in evaluating and managing acutely ill pediatric patients.
